Independent auditor's report

**To the Shareholders of
Industries Qatar Q.P.S.C.**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Industries Qatar Q.P.S.C. (the 'Company') and its subsidiaries (together the 'Group'), which comprise the consolidated statement of financial position as at 31 December 2025, the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information, as set out on pages 7 to 67.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), as applicable to audits of the financial statements of public interest entities, together with the ethical requirements that are relevant to our audit of the Company's consolidated financial statements in the State of Qatar, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent auditor's report on the consolidated financial statements of Industries Qatar Q.P.S.C. (continued)

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| 1. Recognition of revenue | |
|---|--|
| See Note 9 and 24 to the consolidated financial statements. | |
| The key audit matter | How the matter was addressed in our audit |
| <p>The Group recognised revenue of QR 15,978 million during the year.</p> <p>As disclosed in Note 9, the Group's share of profits from its joint venture amounting to QR 675 million represents 16% of the Group's profit for the year while the total revenue for the year generated by the joint venture amounted to QR 3,420 million.</p> <p>Revenue being a key economic indicator of the Group is significant to the consolidated financial statements and considering significant time and resources required to audit the revenue accounts and inherent risk of material misstatement, we considered this as a key audit matter.</p> | <p>Our audit procedures in this area included, among others:</p> <ul style="list-style-type: none"> - evaluating the appropriateness of the selection of accounting policies based on the requirements of IFRS 15, our understanding of the business and related industry practice; - assessing the design, implementation and operating effectiveness of the relevant internal controls over revenue recognition; - inspecting the agreements with customers, on sample basis, to evaluate that revenue is recognised in accordance with the terms of the agreement and the requirements of IFRS 15; - performing test of details on a sample of revenue transactions by inspecting respective invoices, delivery statements and customers' acknowledgements and other corroborating evidence; - comparing on a sample basis, the revenue transactions recorded before and after the reporting period with underlying supporting documents to assess if related revenue is recorded in the correct accounting period; and - evaluating the adequacy of the financial statement disclosures, including disclosure of key assumptions and judgements. |

Independent auditor's report on the consolidated financial statements of Industries Qatar Q.P.S.C. (continued)

Key Audit Matters (continued)

2. Measurement of provision for decommissioning and site restoration obligation ("DSRO")

See Note 7 and 19.2 to the consolidated financial statements.

| The key audit matter | How the matter was addressed in our audit |
|---|---|
| <p>During the year, the Group recorded a provision for DSRO which amounts to QR 1,136 million as of 31 December 2025 representing 25% of the Group's total liabilities.</p> <p>DSRO provision is recorded at the present value of estimated costs of decommissioning and restoration activities. The measurement of DSRO provision is inherently judgemental and requires the Group's management and their experts to make significant judgements and estimates about timing of the decommissioning activity, the Group's expected approach to DSRO activities, price levels, inflation & discount rates, technology and regulations.</p> <p>The above factors increase the degree of complexity in estimating the DSRO provision in accordance with IAS 37 <i>Provisions, Contingent Liabilities and Contingent Assets</i>.</p> <p>Therefore, this area was considered to be a key audit matter given its magnitude and its inherent subjectivity in estimating future costs and their timing.</p> | <p>Our audit procedures in this area included, among others:</p> <ul style="list-style-type: none"> – assessing the design and implementation of the relevant internal controls over the DSRO estimation process; – evaluating the appropriateness of: <ul style="list-style-type: none"> • the timing of recognition of the DSRO provision in line with relevant underlying supporting documents; and • the expected timing of the decommissioning activities based on relevant communications and agreements with the lessor. – evaluating: <ul style="list-style-type: none"> • the competence, capabilities and objectivity of management's expert; • the appropriateness of the methods and assumptions applied by management's expert; and • the relevance and reliability of data used by management's expert in estimating the provision. – involving our own valuation specialists to assist in evaluating the appropriateness of the discount rates and inflation rates used by the Group, which included comparing these inputs with externally derived data as well as our own assessments based on our knowledge of the Group and the industry; – re-performing the calculation of the DSRO provision to assess accuracy; and – evaluating the adequacy of the financial statement disclosures, including disclosures of key assumptions, judgements and sensitivities. |

Independent auditor's report on the consolidated financial statements of Industries Qatar Q.P.S.C. (continued)

Other Information

The Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. Prior to the date of this auditor's report, we obtained the report of the Board of Directors which forms part of the Annual Report, and the remaining sections of the Annual Report are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon as part of our engagement to audit the consolidated financial statements. We have performed assurance engagements on the internal controls over financial reporting, the Company's compliance with the provisions of the Qatar Financial Markets Authority's Governance Code for Listed Companies that forms part of the other information and provided a separate assurance practitioner's conclusion thereon that is included within the other information.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Board of Directors for the Consolidated Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent auditor's report on the consolidated financial statements of Industries Qatar Q.P.S.C. (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Independent auditor's report on the consolidated financial statements of Industries Qatar Q.P.S.C. (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Qatar Commercial Companies Law No. 11 of 2015, whose certain provisions were subsequently amended by Law No. 8 of 2021 ("amended QCCL"), we also report that:

- i) We have obtained all the information and explanations we considered necessary for the purposes of our audit;
- ii) The Company has maintained proper accounting records and its consolidated financial statements are in agreement therewith;
- iii) We have read the report of the Board of Directors to be included in the Annual Report, and the financial information contained therein is in agreement with the books and records of the Company.
- iv) Furthermore, the physical count of the Group's inventories in Qatar was carried out in accordance with established principles; and
- v) We are not aware of any violations of the applicable provisions of the amended QCCL or the terms of the Company's Articles of Association having occurred during the year which might have had a material effect on the Company's consolidated financial position or performance as at and for the year ended 31 December 2025.

| Dividends and tax benefits from joint ventures | | 1,230,704 | 916,490 |
| Additional investment in an associate | | (48,686) | - |
| Movement in fixed deposits and other bank balances | 6 | 1,175,621 | 3,582,585 |
| Interest received | | 512,269 | 515,187 |
| Net cash from investing activities | | 1,029,312 | 2,858,388 |
| Cash flows from financing activities | | | |
| Interest paid related to lease liability | | (24,004) | (23,716) |
| Repayment of principal related to lease liability | | (66,371) | (54,160) |
| Finance costs paid | | (1,164) | (507) |
| Movement in unclaimed dividends payable | | (10,259) | (15,095) |
| Dividends paid to equity owners of the Company | | (4,174,500) | (6,594,500) |
| Dividend paid to non-controlling interests | | (2,490) | (1,950) |
| Cash used in financing activities | | (4,278,788) | (6,689,928) |
| Net increase / (decrease) in cash and cash equivalents | | 297,269 | (26,014) |
| Cash and cash equivalents at 1 January | | 3,433,990 | 3,460,004 |
| Cash and cash equivalents at 31 December | 5 | 3,731,259 | 3,433,990 |

Non-cash transactions:

The following non-cash activities are entered into by the Group and are not reflected in the consolidated statement of cash flows:

- The Group recognized additional right of use assets and lease liabilities amounting to QR 20.4 million (2024: QR 127.5 million). Refer to Note 11.
- During the year 2024, the Group transferred QR 191.5 million from advances to investments in associates. Refer to Note 8.
- During the year, in connection with the subscription to a rights issue of shares by SOLB, the Group transferred QR 12.2 million (2024: Nil) from "Due from related parties" under trade and other receivables to investment in associates. Refer to Note 8.
- During the year, the Group recognised a provision for site restoration obligations amounting to QR 1,106 million (2024: Nil). Accordingly, additions to property, plant and equipment include non-cash capitalisation of the related decommissioning asset. Refer to Note 7 and Note 19.2.

* The comparative information has been restated due to the completion of acquisition accounting for a subsidiary. Refer to Note 31.

The accompanying notes 1 to 37 are an integral part of these consolidated financial statements

1. Legal status and principal activities

Industries Qatar Q.P.S.C. (the “Company” or “IQ”) is a Qatari Public Shareholding Company, incorporated in the State of Qatar on 19 April 2003, in accordance with Qatar Commercial Companies’ Law No. 5 of 2002, as replaced by Qatar Commercial Companies’ Law number 11 of 2015, for a 50-year term by resolution No. 33 of 2003 from the Ministry of Commerce and Industry of the State of Qatar. The Company’s shares are listed on the Qatar Stock Exchange. The Company’s registered office is situated in Doha, State of Qatar. QatarEnergy is the controlling shareholder of the Company and QatarEnergy is owned by Supreme Council for Economic Affairs and Investment of the Government of State of Qatar, which is the ultimate controlling party.

IQ, its subsidiaries, associates and joint ventures (together the “Group”) operate in three main distinct segments: petrochemicals, fertilisers and steel. More information about the Group’s activities is given in Note 32. The structure of the Group, included in these consolidated financial statements is as follows:

| Relationship | Country of incorporation | Percentage of holding | |
|--|--------------------------|-------------------------|---------------|
| | | 2025 | 2024 |
| Qatar Steel Company (Qatari Private Shareholding Company) (“Qatar Steel”) | Subsidiary | Qatar | 100% 100% |
| Qatar Steel Company FZE (Dubai) | Subsidiary | UAE | 100% 100% |
| Al Qataria for Production and Reinforcing Steel W.L.L. (“Al Qataria”) | Subsidiary | Qatar | 100% 100% |
| Qatar Fertiliser Company (Qatari Private Shareholding Company) (“QAFCO”) | Subsidiary | Qatar | 100% 100% |
| Gulf Formaldehyde Company (Qatari Private Shareholding Company) (“GFC”) | Subsidiary | Qatar | 70% 70% |
| Qatar Melamine Company (Qatari Private Shareholding Company) (“QMC”) | Subsidiary | Qatar | 100% 100% |
| Qatar Fuel Additives Company Limited (Qatari Private Shareholding Company) (“QAFAC”) | Subsidiary | Qatar | 50% 50% |
| Qatar Petrochemical Company Q.P.J.S.C (“QAPCO”) | Joint venture | Qatar | 80% 80% |
| Qatar Metals Coating Company W.L.L. (“Q-COAT”) | Associate | Qatar | 50% 50% |
| SOLB Steel Company (“SOLB”) | Associate | Kingdom of Saudi Arabia | 40.44% 40.38% |
| Foulath Holding B.S.C. | Associate | Bahrain | 25% 25% |

Qatar Steel Company (“Qatar Steel”), a Qatari Private Shareholding Company incorporated in the State of Qatar, and wholly owned by IQ. Qatar Steel is engaged in manufacturing of steel billets and reinforcing bars for sale in the domestic and export markets.

Qatar Steel Company FZE (Dubai), a wholly owned through Qatar Steel with limited liability incorporated in Dubai on 22 July 2003 pursuant to Dubai Law No. 9 of 1992 and implementing the regulations of the Jebel Ali Free Zone Authority. The principal activities of Qatar Steel Company FZE (UAE) are manufacturing and selling of steel products.

Al Qataria for Production of Reinforcing Steel W.L.L. (“Al Qataria”), a company with limited liability incorporated in the State of Qatar, and wholly owned through Qatar Steel, Al Qataria is engaged in the production of reinforcing steel. The principal activities of Al Qataria include the production of billets, rebars, and trading of iron.

Qatar Fertiliser Company (“QAFCO”), a Qatari Private Shareholding Company incorporated in the State of Qatar, and wholly owned by IQ. QAFCO is engaged in the production and sale of Urea and Ammonia.

Qatar Melamine Company (“QMC”), a Qatari Private Shareholding Company incorporated in the State of Qatar, and wholly owned through QAFCO, is engaged in the production and sale of Melamine. The Group has resolved to transfer QMC’s assets to QAFCO through a merger process. As at 31 December 2025, the merger is in process and is subject to further approvals and the fulfilment of legal and regulatory requirements.

1. Legal status and principal activities (continued)

Gulf Formaldehyde Company (“GFC”), a Qatari Private Shareholding Company incorporated in the State of Qatar, is 70% owned through QAFCO and 30% owned by Qatar Industrial Manufacturing Company (Q.P.S.C.). GFC is engaged in the production and sale of Urea Formaldehyde Concrete.

Qatar Fuel Additives Company Limited (“QAFAC”), a Qatari Private Shareholding Company incorporated in the State of Qatar, whose 50% of the shares are owned by IQ and 50% shares are held by a related party. The principal activities of QAFAC are to construct, own, operate and maintain facilities for the production, marketing and export of methyl-tertiary-butyl-ether (MTBE) and methanol.

Qatar Petrochemical Company Q.P.J.S.C. (“QAPCO”), a Qatari Private Joint Shareholding Company incorporated in the State of Qatar, is a joint venture between IQ (80%) and Total Energies Petrochemicals France S.A. (20%). QAPCO is engaged in the production and sale of ethylene, polyethylene, hexane and other petrochemical products.

Foulath Holding B.S.C. is a Bahraini Closed Joint Stock Company owned through Qatar Steel and incorporated on 26 June 2008 in the Kingdom of Bahrain. Foulath Holding B.S.C. is a holding company for a group of commercial/industrial companies that are engaged in the manufacture and sale of various steel products.

SOLB Steel Company (“SOLB”) is a company owned through Qatar Steel incorporated in the Kingdom of Saudi Arabia and is engaged in the manufacture and sale of steel products.

Qatar Metals Coating Company W.L.L. (“Q-COAT”) is a limited liability owned through Qatar Steel incorporated in Qatar involved in the production of epoxy resin coated bars. Q-COAT is managed by the Group in accordance with a management service agreement.

The consolidated financial statements of the Group for the year ended 31 December 2025 were approved and authorised for issue by the Board of Directors on 11 February 2026.

2. Basis of preparation

2.1 Statement of compliance

The consolidated financial statements of the Group have been prepared in accordance with IFRS Accounting Standards as issued by International Accounting Standards Board (IFRS Accounting Standards).

2.2 Basis of measurement

These consolidated financial statements are prepared using the historical cost basis except for certain assets acquired in a business combination and financial assets at fair value through profit or loss, which are measured at fair value.

2.3 Functional and presentation currency

These consolidated financial statements are presented in Qatari Riyals (QR), which is the Company's functional currency. All the financial information presented in these consolidated financial statements has been rounded off to nearest thousands (QR '000) except where otherwise indicated.

2.4 New currently effective accounting standards or amendments requirements

The accounting policies adopted by the Group in the preparation of the consolidated financial statements are consistent with those of the previous financial year except for the changes required as per the adoption of the new standards, amendments and interpretations.

2. Basis of preparation (continued)

2.4 New currently effective accounting standards or amendments requirements (continued)

New currently effective requirements

The table below lists the recent changes to the Accounting Standards that are required to be applied by the Group with an annual reporting period beginning on 1 January 2025:

| | |
|--------------------------------------|---|
| <i>Effective from 1 January 2025</i> | • <i>Lack of Exchangeability – Amendments to IAS 21</i> |
|--------------------------------------|---|

The application of these amendments had no material impact on the Group's consolidated financial statements.

Accounting standards issued but not yet effective

A number of new accounting standards and amendments are effective for annual reporting periods beginning after 1 January 2025 and earlier application is permitted. However, the Group has not early adopted the following new or amended accounting standards in preparing these consolidated financial statements.

A. IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The new standard introduces the following key new requirements.

- Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
- Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements.
- Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method.

The Group is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Group's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Group is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as 'other'.

B. Other accounting standards

The following new and amended accounting standards are not expected to have a significant impact on the Group's consolidated financial statements:

| | |
|---|--|
| <i>Effective for the year beginning 1 January 2026</i> | • <i>Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7</i> • <i>Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7</i> • <i>Annual Improvements to IFRS Accounting Standards – Volume 11</i> |
| <i>Effective for the year beginning 1 January 2027</i> | • <i>IFRS 19 Subsidiaries without Public Accountability: Disclosures</i> |
| <i>Available for optional adoption / effective date deferred indefinitely</i> | • <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 and IAS 28</i> |

Management anticipates that these new accounting standards and amendments to accounting standards will be adopted in the Group's consolidated financial statements as and when they are applicable and adoption of these amendments to accounting standards is not expected to have a material impact on the consolidated financial statements of the Group in the period of initial application.

3. Material accounting policies

3.1 Basis of consolidation and business combination

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved when the Group:

- has the power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Subsidiaries are fully consolidated from the date on which Company obtains control and continued to be consolidated until the date when such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of the subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries, joint ventures and associates to bring their accounting policies in line with the Group's accounting policies.

All intragroup balances, transactions and unrealised gains and losses resulting from intra-group transactions and dividends are eliminated or reversed in full.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognized in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Business combination

Acquisitions of a business are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition related costs are generally recognised in profit or loss as incurred.

3. Material accounting policies (continued)

3.1 Basis of consolidation and business combination (continued)

Business combination (continued)

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair values, except that:

- Deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognized and measured under the Group's accounting policies; and
- Assets (or disposal group) that are classified as held for sale in accordance with the Group's accounting policies.

Non-controlling interests that are present ownership interests and entitle holders to a proportionate share of the entity's net assets in the event of liquidation is initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of the measurement basis is made on a transaction-by-transaction basis.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are those adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not measured at subsequent reporting dates and subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with the Group's accounting policies, as appropriate, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interest in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the financial reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the 'measurement period', or additional assets or liabilities are recognised, to reflect the information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amount recognised at that date.

3.2 Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

3. Material accounting policies (continued)

3.2 Investments in associates and joint ventures (continued)

Equity method of accounting

The Group accounts for its investments in associates and joint ventures in its consolidated financial statements using the equity method of accounting.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received from equity accounted investees are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables for which settlement is neither planned nor expected to happen in foreseeable future, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its equity accounted investees are eliminated to the extent of the Group's interest in these entities. For presentation purpose, the Group has elected to eliminate the unrealised gains from the carrying value of its investment in joint ventures and share of profits from its investment in joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate / joint venture or when the investment is classified as held for sale. In case of disposal, the difference between carrying amount of the associate / joint venture at the date the equity method was discontinued and proceeds from disposal is recognised in profit or loss.

When the Group changes its ownership interest in an associate / joint venture but the Group continues to use the equity method, the Group does not remeasure the existing interest. In case of acquisition of additional interest, purchase consideration is compared with net assets acquired; any excess of purchase consideration over net assets acquired is recognised as goodwill (included within carrying value of associate / joint venture), while any excess of net assets acquired over purchase consideration is recognised in profit or loss as part of share of profit from associate / joint venture. In case of decrease in interest while equity method continues to be applied, difference between sale consideration and net assets as of the date of dilution is recognised in profit or loss as part of share of associate / joint venture.

3.3 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Managing Director ("MD") who is the chief operating decision maker of the Group. The MD is responsible for allocating resources and assessing performance of the operating segments. Additional disclosures on each of these segments are shown in Note 32, including the factors used to identify the reportable segments and the measurement basis of segment information.

3.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of rebates, trade allowances, returns, freight and amounts collected on behalf of third parties including value added taxes. The Group recognises revenue when the amount of revenue can be reliably measured; it is probable that future economic benefits will flow to the Group; and specific criteria have been met for each of the Group's activities, as described below.

3. Material accounting policies (continued)

3.4 Revenue recognition (continued)

Sale of steel products

The Group manufactures and sells a range of steel products and by-products. Sales of goods are recognised when the Group has delivered products to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products.

Delivery does not occur until the products have been shipped to the specified location, the risks of obsolescence and loss have been transferred to the customer, and either of the following has been satisfied i) the customer has accepted the products in accordance with the sales contract, ii) the acceptance provisions have lapsed or iii) the Group has objective evidence that all criteria for acceptance have been satisfied.

Revenue from sales is measured based on the price specified in the sales contracts, net of the estimated volume discounts and returns at the time of sale. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases. No element of financing is deemed present as the sales are made with a credit term of 30 to 90 days.

Sales of petrochemical and fertiliser products

The Group manufactures and sells a range of petrochemical and fertiliser products and by-products which includes Urea, Ammonia, Melamine, Methanol, MTBE, and Pentane. Sales of goods are recognised when the Group has delivered products to the customer and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Terms of delivery to customers are specified in the offtake requirements for regulated products. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or possible return of goods.

3.5 Leases

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group uses the definition of a lease in IFRS 16.

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices.

The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets (such as tablets and personal computers, small items of office furniture and telephones). For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

3. Material accounting policies (continued)

3.5 Leases (continued)

The Group as lessee (continued)

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the consolidated statement of financial position.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line "General and administrative expenses" in profit or loss.

The Group does not act as a lessor.

3.6 Foreign currencies

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year-end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Foreign exchange gains and losses that relate to borrowings are presented in the consolidated statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the consolidated statement of profit or loss on a net basis within other income or other expenses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities classified as available-for-sale financial assets are recognised in other comprehensive income.

3. Material accounting policies (continued)

3.7 Property, plant and equipment

Property, plant and equipment is stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost is the initial cost of an asset comprises its purchase price or construction cost, any costs directly attributable to bringing the asset into operation, initial estimate of the present value of decommissioning obligations and directly attributable borrowing costs. These costs are capitalized and depreciated over the useful life of the related assets. Adjustments arising from changes in the provision are added to or deducted from the carrying amount of the asset and depreciated prospectively.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the consolidated statement of profit or loss during the reporting period in which they are incurred.

Depreciation is calculated to allocate the cost of assets over their estimated useful lives on a straight-line basis commencing when the assets become ready for their intended use. The estimated useful lives, residual values and depreciation methods are reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

The Group's estimated useful lives on each asset classification are as follows:

| | |
|-------------------------------|---------------|
| Buildings | 13 - 35 years |
| Plant machinery and equipment | 3 - 35 years |
| Furniture and other equipment | 3 - 10 years |
| Decommissioning assets | 9 - 12 years |

Items in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such items are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property, plant and equipment, commences when the assets are ready for their intended use.

Expenditure incurred to replace a component of an item of property, plant and equipment that is accounted for separately is capitalised and the carrying amount of the component that is replaced is written off. Other subsequent expenditure is capitalised only when it increases future economic benefits of the related item of property, plant and equipment. All other expenditure is recognised in the consolidated statement of profit or loss and other comprehensive income as the expense is incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit or loss and other comprehensive income in the year the asset is derecognised.

Capital work-in-progress (including capital advance) is initially recognised at cost, which includes cost of materials, direct labour and any other costs directly attributable to bringing the asset to a working condition for its intended use. Following the initial recognition; capital work-in-progress is carried at cost less impairment losses – if any. Capital work-in-progress is not depreciated or amortized.

Capital work-in-progress will be transferred to respective classes of property, plant and equipment when the asset is ready for use as intended by the management

3.8 Impairment of non-financial assets

Non-financial assets that are subject to depreciation or amortisation are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Non-financial assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

3. Material accounting policies (continued)

3.8 Impairment of non-financial assets (continued)

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows, which are largely independent of the cash inflows from other assets or Groups of assets (cash-generating units).

Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

3.9 Inventories

Inventories are measured at the lower of cost and net realisable value. Costs are those expenses incurred in bringing each product to its present location and condition, as follows:

- Warehouse inventory - purchase cost after deducting rebates and discounts, on a moving weighted average basis.
- Work-in-progress and finished product inventories - production costs on a moving weighted average basis. The production costs include the cost of direct materials, direct labour and an appropriate allocation of overheads allocated on the basis of normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and that to be incurred to make the sale.

3.10 Catalysts

Catalysts are classified as other non-current assets and initially recorded at cost. Subsequently, they are measured at cost less accumulated amortisation and any impairment in value. Catalysts are amortised over the estimated useful lives of 1 to 12 years. Catalysts not in use at the plant are kept under inventories and stated at the lower of cost and net realisable value.

3.11 Fair value measurement

For measurement and disclosure purposes, the Group determines the fair value of an asset or liability at initial measurement or at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on the basis as explained above, except for share-based payment transactions that are within the scope of IFRS 2; leasing transactions that are within the scope of IFRS 16 for current year and measurements that have some similarities to fair value, but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

3. Material accounting policies (continued)

3.11 Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting date.

3.12 Financial instruments

Financial assets and financial liabilities are recognised in the Group's consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments designated at amortised cost

Debt instruments that meet the following conditions are measured subsequently at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.

3. Material accounting policies (continued)

3.12 Financial instruments (continued)

Financial assets (continued)

Classification of financial assets (continued)

Financial assets at FVTPL (continued)

- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency (so called 'accounting mismatch') that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any debt instruments as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on trade receivables as well as on financial guarantee contracts. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

(i) Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

3. Material accounting policies (continued)

3.12 Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

(i) Significant increase in credit risk (continued)

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

The Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (1) The financial instrument has a low risk of default;
- (2) The borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and
- (3) Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

(ii) Definition of default

The Group employs statistical models to analyse the data collected and generate estimates of probability of default ("PD") of exposures with the passage of time. This analysis includes the identification for any changes in default rates and changes in key macro-economic factors across various geographies of the Group.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event (see (ii) above);
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery.

(v) Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

3. Material accounting policies (continued)

3.12 Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

(v) Measurement and recognition of expected credit losses (continued)

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at FVTPL.

Financial liabilities measured subsequently at amortised cost

Financial liabilities that are not designated as FVTPL, are measured subsequently at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

3.13 Employee benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating annual and sick leaves that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are included in trade and other payables.

3. Material accounting policies (continued)

3.13 Employee benefits (continued)

Post-employment benefits

The Group operates defined contribution and defined benefit retirement plans.

a) *Defined contribution pension plan*

Group has a defined contribution plan for the Qatari (who joined Group on or after 6 March 2003) and other GCC national employees. In case of Qatari employee, Group contributes as pension, 14% of salary (Basic Salary + Social Allowance + Housing Allowance) on behalf of the employee and employee contributes 7% and therefore 21% is remitted to Government Pension Fund as per requirements of Social Insurance Law No 1 of 2022 (amending Law No. 24 of 2002 pertaining to Retirement and Pensions). In case of other GCC nationals, Group and other GCC employees contribute at specified rates which are then remitted to Government pension fund. Under this Law and Group's policy, Group does not have any legal or constructive obligation to pay future pension to those employees and hence Group's obligations are limited to its contributions paid to respective Government's Pension Fund which are expensed when due.

b) *Defined benefit plan*

A defined benefit plan is a pension plan that is not a defined contribution plan. In accordance with Qatar Labour Law No. 14 of 2004, the Group makes payments to non-Qatari employees on their retirement, usually dependent on one or more factors such as age, years of service and compensation. This benefit was amended to also include Qatari employees who have completed 20 years' service.

For subsidiaries and associates located outside the State of Qatar, the Group follows the applicable laws and regulations in their countries.

For Qatari employees who retired prior to 2003, the Group pays pension to them in accordance with QatarEnergy pension scheme. These payments meet the definition of a defined benefit scheme under IAS 19 and are therefore accounted accordingly.

The liability recognised in the statement of financial position in respect of end of service benefits and defined benefit pension plans should be the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation. When no deep market in such bonds, the market rates on government bonds are used.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised, when material, in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the consolidated statement of changes in equity and in the statement of financial position, if any.

Other short-term employees' benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be measured reliably.

3.14 Provisions

Provisions are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

3. Material accounting policies (continued)

3.14 Provisions (continued)

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

3.15 Provision for decommissioning and site restoration obligations

The Group recognizes a provision for decommissioning and site restoration obligations associated mainly with plant and related assets. These obligations arise from either legal or constructive obligations, as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of obligation can be made.

In accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets and IAS 16 Property, Plant and Equipment, the estimated present value of future restoration costs is recognized as a provision at the date when the obligation arises, and the corresponding amount is capitalized as part of property, plant and equipment and depreciated over its useful life. The provision is measured at the present value of expected future cash outflows based on expected timing of decommissioning, discounted using a rate that reflects current market assessments of the time value of money and risks specific to the liability. The unwinding of the discount is recognized as a finance cost in profit or loss. Provisions are reviewed periodically and adjusted for changes in estimates, including timing, cost assumptions, inflation and discount rates. Adjustments to decommissioning provision are accounted for prospectively, impacting both the provision and the carrying amount of the related asset. Additional assets which arise due to further development / construction are recognised as addition to property, plant and equipment and provision for decommissioning and site restoration obligation when they occur.

3.16 Income tax

Income tax is provided in accordance with the Qatar Income Tax Regulations. Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

In 2020, management received a signed Memorandum of Understanding ("hereby referred to as the MOU") between QatarEnergy, General Tax Authority and Ministry of Finance. The MOU covers the tax reporting and payment implications applicable to the components of certain companies listed on Qatar Stock Exchange.

In determination of the Group's tax liability, the probability that the tax authority will accept certain tax treatments has been considered. Where it has been concluded that it is probable that the tax authority will accept such tax treatments the Group has determined the tax liability consistently with the tax treatments used or planned to be used in its income tax filings.

The Group has determined that the global minimum top-up tax is an income tax in the scope of IAS 12. The Group has applied a temporary mandatory relief from deferred tax accounting for the impacts of the top-up tax and accounts for it as a current tax when it is incurred.

3.17 Deferred tax

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Under this method, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences and carry forward of unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary difference and the carry forward of unused tax losses can be utilised. A tax rate range of 10-35%, which is applicable to the Group, is used to measure deferred tax assets and liabilities.

3. Material accounting policies (continued)

3.17 Deferred tax (continued)

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow deferred tax asset to be recovered.

3.18 Social and sports contribution fund

The Group makes contributions equivalents to 2.5% of the adjusted consolidated net profit relating to Qatar operations for the year into a state social and sports contribution fund for the support of social and sports activities. This is presented in the statement of changes in equity as appropriation of profit in accordance with Law No. 13 of 2008.

3.19 Dividends distribution

Liabilities for dividend distributions are recognised for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Group, on or before the end of the reporting period but not distributed at the end of the reporting period. Dividend distribution liabilities are recognised as a direct charge to retained earnings in the consolidated statement of changes in equity, with any unpaid amount is presented under trade and other payables in the consolidated statement of financial position.

3.20 Earnings per share

Basic earnings per share is calculated by dividing:

- the profit or loss attributable to ordinary owners of the Group
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the effect of any dilutive potential ordinary shares.

3.21 Events after the reporting date

The consolidated financial statements are adjusted to reflect events that occurred between the reporting date and the date when the consolidated financial statements are authorised for issue, provided they give evidence of conditions that existed at the reporting date. Any post year-end events that are non-adjusting are disclosed in the consolidated financial statements when material.

3.22 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at banks and short-term fixed deposits below 90 days and exclude restricted bank balances.

4. Critical judgments and key sources of estimation uncertainty

The preparation of the consolidated financial statements in compliance with IFRS Accounting Standards requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

4. Critical judgments and key sources of estimation uncertainty (continued)

4.1 Critical judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

4.1.1 Judgements in determining the timing of satisfaction of performance obligations ("POs")

Performance obligations satisfied at a point in time, the Group considers the general requirements of control (i.e. direct the use of asset and obtain substantially all benefits) and the following non-exhaustive list of indicators of transfer of control:

- Entity has present right to payment
- Customer has legal title
- Entity has transferred physical possession
- Customer has risk and rewards of ownership
- Customer has accepted the asset

In making their judgement, the management considered the detailed criteria for the recognition of revenue set out in IFRS 15 and, in particular, whether the Group had transferred control of the goods to the customer.

4.1.2 Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

4.1.3 Significant increase in credit risk

ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. IFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information.

The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

4.1.4 Determining the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The assessment is reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the lessee.

4. Critical judgments and key sources of estimation uncertainty (continued)

4.1 Critical judgments (continued)

4.1.5 Going concern

The Group's management has made an assessment of the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue a going concern. Therefore, the consolidated financial statements are prepared on a going concern basis.

4.1.6 Classification of Qatar Metals Coating Company WLL (Q-coat) as an associate

The Group has 50% interest in Qatar Metals Coating Company W.L.L., with the remaining 50% held by Qatar Industrial Manufacturing Company Q.P.S.C. The articles of association and shareholder agreement of Qatar Metals Coating Company W.L.L. requires appointment of equal number of board members by each company from which the Chairman is selected based on mutual understanding between both shareholders, and the Chairman has voting casting power; therefore, control is not demonstrated by the entity that does not appoint the Chairman. The current term of office requires appointment of the Chairman by Qatar Industrial Manufacturing Company. The Group has assessed that since the Chairman is appointed by Qatar Industrial Manufacturing Company in the current term, it limits the ability of the Group to exercise control and therefore, its interest in Qatar Metals Coating Company W.L.L. is recognized as an associate and is accounted for using equity method in consolidated financial statements as described in Note 3.

4.1.7 Classification of investments as joint ventures

Management evaluated the Group's interests in QAPCO and concluded that the joint arrangement is a joint venture where the entity is jointly controlled and the partners have rights to the net assets of the joint arrangements. In this investment, all decisions about the relevant activities require unanimous consent of the parties that collectively control the arrangement, as established contractually in the agreement and articles of association. Hence, management recognized this investment as investment in joint venture and accordingly accounted for the investment under the equity method in the consolidated financial statements.

4.1.8 Provision for decommissioning and site restoration obligations

The Group has land lease agreements mainly with QatarEnergy ("the Lessor") over the land on which plant and its related facilities have been constructed. Under these agreements, the Lessor has the right, upon termination or expiration of the lease term, to notify the Group that it requires to either:

- Transfer the facilities to the Lessor or a transferee nominated by the Lessor, against a price acceptable by the Group (in certain cases), or;
- Remove the facilities and all other property from the land and restore it to the condition in which it was delivered to the Group, at the Group's cost, unless otherwise is agreed with the Lessor.

On 24 August 2025, the Lessor issued formal decommissioning guidelines outlining the prescribed methodology and technical parameters for determining decommissioning obligations.

During the year, the Group management has re-assessed its position based on issuance of formal decommissioning guidelines by the Lessor, recent communications from the Lessor and land lease agreements and has concluded that an obligation has been created as the Lessor may choose the option to remove the facilities or fund the decommissioning program, as appropriate. As a result, provision for decommissioning and site restoration obligation has been recognized in these consolidated financial statements for various assets and entities across the Group, as applicable. Refer Note 19.2.

These decommissioning activities are estimated to occur in the future for an extended period upto 2071. This estimated time period is many years into the future and precise requirements that will have to be met when these decommissioning activities will actually occur are uncertain.

4. Critical judgments and key sources of estimation uncertainty (continued)

4.1 Critical judgments (continued)

4.1.9 Income tax

Under the provisions of the Law 24 of 2018, in particular Article 4 (11) of the said law, the tax exemptions do not apply to the share of profits attributable to companies that are owned, wholly or partly by the State, whether owned directly or indirectly, and that are engaged in Petroleum Operations or operating in Petrochemical Industry. Furthermore, Article 2 (12) of the executive regulations accompanying the Tax Law states that the tax exemption available to companies listed on the capital markets is not applicable to their components.

Management received a signed MOU between QatarEnergy, General Tax Authority and Ministry of Finance. The MOU covers the tax reporting and payment implications applicable to the components of certain companies listed on Qatar Stock Exchange.

The MOU also states that the tax amounts due on the share of the public shareholding companies will be recorded in the books and in the tax returns to be submitted to General Tax Authority. Each company shall pay the amount of the income tax relating to the share of profit of the public shareholding company directly to the public shareholding company, and settlement of this amount with the General Tax Authority will be made through the defined arrangement between the public shareholding company, QatarEnergy and the Ministry of Finance as per the MOU.

Accordingly, for the purpose of accruing the tax liability for the years ended 31 December 2024 and 2025 management of the component entities of the Group has considered the taxable income of components as 100% taxable.

Management of the Group has recorded the tax benefit or refund received through the settlement mechanism defined in the MOU within the tax exempted income for that related to subsidiaries and within the share of results of investments in associates and joint ventures for the benefit related to those Group entities. Deferred tax has been adjusted accordingly. The payments received by the Group from the joint ventures and associates relating to the tax benefit are recorded within the investment in those entities.

Management has exercised critical judgement to evaluate open tax assessments, which are included in Note 30(c).

4.1.10 Reversal of impairment on property, plant and equipment

During the prior years, Qatar Steel decided to mothball some of the production facilities due to losses made on international sales. Due to this mothballing exercise Qatar Steel recognized full impairment on the assets related to said facilities. During the current year, Qatar Steel reassessed its business outlook and, supported by increased demand across the GCC region (including from new customers and infrastructure-led projects), decided to partially de-mothball the previously mothballed facilities. Accordingly, they assessed property, plant and equipment (CGU) for impairment reversal by comparing the recoverable amount of the CGU to its carrying amount. This resulted in a reversal of impairment as disclosed in Note 7 to these consolidated financial statements. The Group has considered overall production facilities as one cash generating unit (CGU). While concluding the CGU, management has considered the fact that the output from one plant routinely becomes input for another, performance of the Group is measured at overall level and the different production facilities producing the final products have been aggregated and treated as a single CGU for the purpose of impairment testing.

4. Critical judgments and key sources of estimation uncertainty (continued)

4.2 Assumptions and estimation uncertainties

The key assumptions concerning the future and other sources of estimation uncertainty at the consolidated financial position date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within are discussed below.

4.2.1 Measurement of loss on potential liabilities related to financial guarantee

When measuring the potential liability related to financial guarantees given by the Group to the associate ("SOLB Steel Company" located in Kingdom of Saudi Arabia) bank for certain facilities extended to the associate, Management has considered the terms and conditions of the financial guarantees signed with banks for purpose of providing adequate provision against any breach by the associate. Based on this consideration, management has used the best estimate towards any exposure that might result for such instance to ensure an adequate provision is provided in the Group's consolidated financial statements considering the requirement of IAS 37.

4.2.2 Discounting of lease payments

The lease payments are discounted using the Group's incremental borrowing rate ("IBR"). Management has applied judgments and estimates to determine the IBR at the commencement of lease.

4.2.3 Estimated useful lives of property, plant and equipment

The Group's management determines the estimated useful lives and residual values of its property, plant and equipment for calculating depreciation as outlined in Note 3. This estimate is determined after considering the expected usage of the asset, physical wear and tear and technical or commercial obsolescence. The estimated useful lives, residual values and depreciation methods are reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis. At year-end, management assessed that no changes occurred to these estimates.

4.2.4 Impairment of investments in associates

As required by IFRS Accounting Standards, the Group assessed its investments in associates for impairment (where indicators were identified) by comparing the recoverable amount of investment to its carrying value. The recoverable amount is estimated by the Group using the "value in use". The value in use calculations were based on the following assumptions for those investments where the impairment indicators were identified:

- Discount rates: 11%
- Utilization of capacity: 80% to 100%
- Earnings before interest, tax, depreciation and amortisation (EBITDA) margin: 10% - 16%
- Terminal period growth rate: 3%
- Projected cash flows over 5 years

The above assumptions are based on management's best estimate and any change thereof may result in materially different recoverable amount. Based on this assessment, management did not identify any further impairment as the value in use exceeded the carrying values of investment in associates.

Where indicators of impairment were identified, the recoverable amount of the relevant investment was determined based on recoverable amount calculation of investee using the approved cash flow projections. The calculation is sensitive to changes in key assumptions, in particular the discount rate and terminal growth rate. Management performed sensitivity analyses by applying reasonably possible changes to these assumptions, including an increase in the discount rate and reductions in terminal growth rate. Based on the sensitivity analyses performed, management concluded that no reasonably possible change in key assumptions would result in the carrying amount of the investment exceeding its recoverable amount and, accordingly, no impairment in Investment is required.

4. Critical judgments and key sources of estimation uncertainty (continued)

4.2 Assumptions and estimation uncertainties (continued)

4.2.5 Pension for retired Qatari employees

The assumptions used in determining the cost for employees' end of service obligations of retired Qatari employees include the discount rate, mortality rates, proportion married, spouse's age and children pension allowance. Any changes in these assumptions will impact the amount of end of service obligations.

The table below sets out the key assumptions used to assess the provision for end of service benefits:

| Assumption | 2025 | 2024 |
|----------------------------|---------------------------------------|---------------------------------------|
| Discount rate | 4.9% | 5.1% |
| Mortality rates | 83.5 years (Male) 86.6 years (Female) | 83.4 years (Male) 86.5 years (Female) |
| Proportion married | 90% | 90% |
| Spouse's age | Husband 5 years older than wives | Husband 5 years older than wives |
| Children pension allowance | Nil | Nil |

The Group determines the appropriate discount rate at the end of each year. This discount rate should be used to determine the present value of estimated future cash outflows expected to be required to settle the employees' end of service obligations.

4.2.6 Provision for end of service benefits for Qatari employees

QatarEnergy has provided guidelines in relation to end of service benefits ("ESB") for Qatari nationals as per the Law No. 14 of 2016. Accordingly, management has concluded that service below the 20-year threshold does not earn any benefit. Therefore, the service below the 20-year threshold does not create an obligation for the Group. For the employees who have completed 20 years of services, management has assessed the obligation and created necessary provision.

4.2.7 Calculation of loss allowance

When measuring ECL the Group uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other. The Group uses estimates for the computation of loss rates.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

4.2.8 Provision for decommissioning and site restoration obligations

The Group accounts for its obligations to decommission plant and its related facilities in accordance with the initial estimate with underlying assumptions that have been discussed amongst the Lessor and the Group.

Based on management's current assessment, a provision has been made in these consolidated financial statements (refer Note 19.2). The amount of the provision recognized is the present value of the estimated future expenditures. The estimate of the future expenditure has been prepared in accordance with international best practices and is based on current local conditions and requirements, including legal requirements, technology, price levels, etc. Actual costs are uncertain, and estimates can vary as a result of changes in the expected approach to decommissioning and site restoration obligations, advancement in technology and the relevant laws and regulations. In addition to these factors, the present values of these estimated future expenditures are also impacted by the estimated time of decommissioning, discount and inflation rates.

The estimate has been developed based on available technical and executional details within the typical range of a Class 3 study and feasibility estimate. The key assumptions used and their sensitivity analysis is disclosed in Note 19.2.

4. Critical judgments and key sources of estimation uncertainty (continued)

4.2 Assumptions and estimation uncertainties (continued)

4.2.9 *Reversal of impairment on property, plant and equipment*

The determination of the recoverable amount of property, plant and equipment of Qatar Steel is based on a value in use methodology. The value in use calculations were performed based on the following assumptions:

- Discount rate: 11%
- Utilization of capacity: 70% to 80%
- Earnings before interest, tax, depreciation and amortisation (EBITDA) margin: 10% - 11%
- Terminal period growth rate: 3%
- Projected cash flows over 5 years

The above assumptions are based on management's best estimate, and any change thereof may result in materially different recoverable amounts.

The recoverable amount of the cash-generating unit ("CGU") was determined based on a value-in-use calculation using approved cash flow projections. The calculation is sensitive to changes in key assumptions, in particular the discount rate and terminal growth rate. Management performed sensitivity analyses by applying reasonably possible changes to these assumptions, including an increase in the discount rate and reductions in terminal growth rate. Based on the sensitivity analyses performed, management concluded that no reasonably possible change in key assumptions would result in the conclusion with regard to the impairment reversal on property, plant and equipment.

5. Cash and cash equivalents

| | 2025 | 2024 |
|---|-------------------------|-------------------------|
| Cash in hand | 175 | 173 |
| Cash at banks | 594,413 | 1,034,296 |
| Short term fixed deposits – less than 90 days | 3,136,671 | 2,399,521 |
| | <u>3,731,259</u> | <u>3,433,990</u> |

6. Fixed deposits and other bank balances

| | 2025 | 2024 |
|------------------------------|-------------------------|-------------------------|
| Fixed deposits (i) | 6,033,924 | 7,282,356 |
| Restricted bank balance (ii) | 83,070 | - |
| Dividend accounts (iii) | 78,985 | 89,244 |
| | <u>6,195,979</u> | <u>7,371,600</u> |

(i) Fixed deposits are held with banks and denominated mainly in US Dollars with an average effective interest rate of 4.6% (31 December 2024: 5.9%).

(ii) The Group entered into service agreements with QatarEnergy, whereby the Group provides project management and execution services for the development activities of the Carbon Capture and Storage (CCS) and urea production complex. QatarEnergy provides funds to the Group for costs (to be) incurred in providing these services, in accordance with the agreement's terms (Note 21(a)). QatarEnergy is the sole owner of these projects. This represents bank balances for the funds received in relation to Urea and CCS project, and as per agreement can be utilised for these projects only.

(iii) Dividend accounts are restricted bank balances for the amounts deposited in the bank for the dividends declared which are yet to be collected by the shareholders.

7. Property, plant and equipment

| | Buildings | Plant machinery and equipment | Furniture and other equipment | Capital work in progress | Decommission -ing assets (v) | Total |
|---|------------------|----------------------------------|-------------------------------------|-----------------------------|---------------------------------|-------------------|
| Cost: | | | | | | |
| At 1 January 2024 | 4,873,766 | 15,685,490 | 193,418 | 2,176,621 | - | 22,929,295 |

| At 31 December 2025 | 2,241,390 | 12,439,490 | 274,263 | - | 46,798 | 15,001,941 |
| Net carrying value: | | | | | | |
| At 31 December 2025 | 2,867,233 | 7,867,716 | 76,992 | 5,434,840 | 1,059,225 | 17,306,006 |
| At 31 December 2024 (Restated*) | 3,053,039 | 8,158,757 | 96,684 | 4,448,497 | - | 15,756,977 |

* Refer to Note 31.

7. Property, plant and equipment (continued)

Notes:

- (i) Buildings mainly include the industrial plant, offsite and administrative facilities constructed on land leased from various parties.
- (ii) Plant, machinery and equipment include capital spares and other spares with a net book value of QR 160.7 million (2024: QR 172.4 million) with useful lives ranging between 15 to 25 years.
- (iii) Depreciation charge has been allocated in the consolidated statement of profit or loss as follows:

| | 2025 | 2024 Restated* |
|---|-------------------------|-------------------------|
| Cost of sales (Note 25) | 1,641,469 | 1,499,988 |
| General and administrative expenses (Note 28) | 46,213 | 33,708 |
| Selling expenses | 861 | 872 |
| | <u>1,688,543</u> | <u>1,534,568</u> |

* Refer to Note 31.

(iv) In 2020, Qatar Steel decided to mothball some of the assets and recorded QR 1.19 billion of impairment against certain production facilities as a result of business model assessment. No additional impairment of property, plant and equipment was recognised after the initial recognition on such assets. During 2023, Qatar Steel restarted some of the mothballed assets, which resulted in a net reversal of QR 550 million. During 2025, Qatar Steel restarted part of the remaining mothballed production facilities, which resulted in a net impairment reversal of QR 222 million the consolidated statement of profit or loss. The impairment on the remaining mothballed assets has not been reversed based on management's assessment of when these assets will resume production.

(v) During the year, the Group has capitalised decommissioning assets and recognized a provision for decommissioning, and site restoration obligations amounting to QR 1,106 million (2024: Nil). Refer to Note 19.2.

7A. Capital project advances

The Group entered into an agreement for the construction of QAFCO Plant VII (Ammonia VII), which is expected to be completed in 2026. An advance payment of QR 192.37 million in respect of this project was made during 2022.

| | 2025 | 2024 |
|--------------------------------------|----------------------|-----------------------|
| At 1 January | 104,671 | 175,041 |
| Released to capital work in progress | (68,736) | (70,370) |
| At 31 December | <u>35,935</u> | <u>104,671</u> |

8. Investments in associates

Set out below are the associates of the Group as at 31 December 2025, which are accounted for using the equity method. The entities listed below have share capital consisting solely of ordinary shares, which are held directly by the Group. The country of incorporation or registration is also their principal place of business, and the proportion of ownership interest is the same as the proportion of voting rights held.

| | Place of business/ country of incorporation | Percentage of ownership | |
|-------------------------------------|--|----------------------------|--------|
| | | 2025 | 2024 |
| Foulath Holding B.S.C. | Kingdom of Bahrain | 25% | 25% |
| SOLB Steel Company | Kingdom of Saudi Arabia | 40.44% | 40.38% |
| Qatar Metals Coating Company W.L.L. | State of Qatar | 50% | 50% |

The associates above are private entities with no available quoted price. The carrying amount of each equity-accounted associate is as follows:

| | 2025 | 2024 |
|-------------------------------------|------------------|------------------|
| Foulath holding B.S.C. | 1,853,210 | 1,803,583 |
| SOLB Steel Company (SOLB) | 266,996 | 271,991 |
| Qatar Metals Coating Company W.L.L. | 19,031 | 6,006 |
| | 2,139,237 | 2,081,580 |

The carrying amount of the Group's equity-accounted associates has changed as follows:

| | 2025 | 2024 |
|--|------------------|------------------|
| At 1 January | 2,081,580 | 1,810,706 |
| Conversion of advances to an investment (i) | - | 191,493 |
| Additional investment (i) | 60,887 | - |
| Share of profit | 139,838 | 345,509 |
| Share of other comprehensive (loss) / income | (4,012) | 9,484 |
| Dividends received | (139,056) | (275,612) |
| At 31 December | 2,139,237 | 2,081,580 |

i. In 2023, the Group paid an advance of QR 191.49 million to SOLB to fund its cash and working capital requirements, with an objective to settle existing loans obtained by SOLB with financial institutions and obtain release of the financial guarantee provided by the Group as a shareholder. This funding helped SOLB settle the loan and, upon release of the financial guarantee from the lender in 2024, the Group reversed the provision for the financial guarantee, resulting in a gain of QR 142.66 million (Note 26).

During 2024, the Group converted advances of QR 191.49 million previously made to SOLB into an investment, which increased its ownership interest from 31.03% to 40.38%.

In 2025, the Group subscribed to additional shares in SOLB through a rights issue amounting to QR 60.89 million, which increased its ownership interest from 40.38% to 40.44%. The subscription was partly settled through the transfer of QR 12.2 million from "Due from related parties" under trade and other receivables, with the remainder settled in cash.

8. Investments in associates (continued)

The summarised financial information in respect of the Group's associates is set out in the following table which represents amounts shown in the associates' financial statements prepared in accordance with IFRS Accounting Standards. They have been amended to reflect adjustments made by the Group when using the equity method, including fair value adjustments and modifications for differences in accounting policy, if any.

| Summarised statement of financial position | Foulath Holding B.S.C. | | Qatar Metals Coating Company W.L.L. | | SOLB Steel Company (SOLB) | |
|--|------------------------|------------------|-------------------------------------|---------------|---------------------------|----------------|
| | 2025 | 2024 | 2025 | 2024 | 2025 | 2024 |
| Current assets | 4,199,263 | 4,095,045 | 60,464 | 49,673 | 279,484 | 300,971 |

| Dividends received | (136,556) | (273,112) | (2,500) | (2,500) | - | - |

9. Investments in joint ventures

The carrying amount of the Group's equity-accounted joint ventures has changed as follows:

| | 2025 | 2024 |
|---|------------------|------------------|
| At 1 January | 5,846,070 | 6,782,965 |
| Share of profit including adjustment related to tax benefit | 674,891 | 1,259,966 |
| Share of other comprehensive loss | (7,333) | (6,575) |
| Dividends and tax benefits | (1,230,704) | (1,293,290) |
| Transfer to subsidiary (Note 31.4) | - | (896,996) |
| At 31 December | 5,282,924 | 5,846,070 |

The summarised financial information regarding the Group's joint ventures is set out in the following table which represents amounts shown in the joint ventures' financial statements prepared in accordance with IFRS Accounting Standards. They have been amended to reflect adjustments made by the Group when using the equity method, including adjustments and modifications for differences in accounting policy, if any.

| Effect of the Group's tax benefit ** | - 101,785 | 233,193 | 335,053 | 233,193 | 436,838 | |
| Group's share of results | - 288,095 | 674,891 | 971,871 | 674,891 | 1,259,966 | |
| Group's share of other comprehensive income | - - | (7,333) | (6,575) | (7,333) | (6,575) | |
| Dividends and related tax benefits | - (273,000) | (1,230,704) | (1,020,290) | (1,230,704) | (1,293,290) | |

* QAFAC results are for the period from 1 January 2024 to 9 June 2024. Refer to Note 31.

** The Group is entitled to pre-tax profits from its joint ventures, therefore, applying the principles of equity accounting under IAS 28, the Group has recorded the tax benefit received by virtue of MOU (Note 23) within the share of results of investments in joint ventures.

10. Advances

| | 2025 | 2024 |
|--|----------------|----------------|
| Advances for investment in Qatar Vinyl Company (QVC) | 443,556 | 315,544 |
| | 443,556 | 315,544 |

On 1 March 2022, the Company entered into a 'Principles Agreement' with QVC and its existing shareholders to develop, build and operate a Polyvinyl Chloride (PVC) manufacturing facility. The project is funded by the Company (44.8%) and Mesaieed Petrochemical Holding Company Q.P.S.C. (a company controlled by the Parent) (MPHC) (55.2%) as per the 'Principles Agreement' entered among the existing shareholders of QVC and the Company.

Further, as per the 'Principles Agreement', QAPCO (31.9% shares) and QatarEnergy (12.9% shares) will transfer their respective shareholdings in QVC to the Company for nil consideration on 1 May 2026, which is the expiry date of existing joint venture agreement of QVC.

The Company will recognise the additional investment in its financial statements upon completion of the share transfer and other legal formalities in this regard. Further, as of that date, the outstanding advances will be converted into investment in QVC.

11. Right-of-use assets and lease liabilities

Group as a Lessee

The Group leases several assets including land and buildings, heavy duty equipment, motor vehicles and other assets. The lease term ranges between 2 – 30 years for land and buildings and 2 – 10 years for other assets.

| | Right-of-use assets | | | | Lease liabilities |
|----------------------------|----------------------|-------------------------|-------------------|-----------------|----------------------|
| | Land and building | Heavy duty equipment | Motor vehicles | Other assets | |
| At 1 January 2024 | 171,000 | 53,370 | 3,384 | 34,090 | 261,844 |
| Additions | 86,958 | 9,249 | 30,831 | 466 | 127,504 |
| Depreciation expense | (32,986) | (14,272) | (4,095) | (1,044) | (52,397) |
| Interest expense | - | - | - | - | 23,716 |
| Payments | - | - | - | - | (77,876) |
| At 31 December 2024 / 1 | 224,972 | 48,347 | 30,120 | 33,512 | 336,951 |
| January 2025 | 224,972 | 48,347 | 30,120 | 33,512 | 455,128 |
| Additions | 6,592 | 9,945 | 3,832 | - | 20,369 |
| Depreciation expense | (35,622) | (17,614) | (7,706) | (1,044) | (61,986) |
| Interest expense | - | - | - | - | 24,004 |
| Payments | - | - | - | - | (90,375) |
| Modifications | (4,128) | - | (96) | - | (4,224) |
| At 31 December 2025 | 191,814 | 40,678 | 26,150 | 32,468 | 291,110 |
| | | | | | 404,739 |

Maturity analysis of contractual cashflows of lease liability is as follows:

| | 2025 | 2024 |
|---|----------------|----------------|
| Not later than 1 year | 90,713 | 87,855 |
| Later than 1 but not later than 5 years | 252,222 | 300,790 |
| Later than 5 years | 233,162 | 257,917 |
| | 576,097 | 646,562 |

11. Right-of-use assets and lease liabilities (continued)

The lease liability is presented in the consolidated statement of financial position as:

| | 2025 | 2024 |
|-------------|----------------|----------------|
| Non-current | 334,043 | 390,797 |
| Current | 70,696 | 64,331 |
| | 404,739 | 455,128 |

The depreciation charge of right-of-use assets has been allocated in the consolidated statement of profit or loss as follows.

| | 2025 | 2024 |
|---|---------------|---------------|
| Cost of sales (Note 25) | 52,527 | 42,584 |
| General and administrative expenses (Note 28) | 9,459 | 9,813 |
| | 61,986 | 52,397 |

The Group does not face significant liquidity risk with regard to its lease liabilities.

12. Equity securities at FVTPL

| | 2025 | 2024 |
|---|----------------|----------------|
| At 1 January | 401,389 | 421,079 |
| Increase / (decrease) in fair value (Note 26) | 4,584 | (19,690) |
| At 31 December | 405,973 | 401,389 |

The above investments are held in quoted equity instruments and include investments in related parties amounting to QR 172.56 million (2024: QR 179.99 million).

13. Inventories

| | 2025 | 2024 |
|--|------------------|------------------|
| Finished goods and goods for resale | 885,507 | 1,221,576 |
| Raw materials | 579,853 | 457,246 |
| Spares and consumables | 1,361,857 | 1,169,714 |
| Work in process | 230,096 | 269,039 |
| Additives | 300,415 | 292,633 |
| Goods in transit | 231,032 | 213,317 |
| | 3,588,760 | 3,623,525 |
| Less: provision for obsolete and slow-moving inventories | (289,605) | (259,516) |
| | 3,299,155 | 3,364,009 |

Movement in the provision for obsolete and slow-moving inventories is as follows:

| | 2025 | 2024 |
|----------------|----------------|----------------|
| At 1 January | 259,516 | 230,729 |
| Provision | 30,089 | 28,787 |
| At 31 December | 289,605 | 259,516 |

14. Trade and other receivables

| | 2025 | 2024 |
|---------------------------------------|-------------------------|-------------------------|
| Trade accounts receivable | 1,312,782 | 810,577 |
| Due from related parties (Note 21(b)) | 1,997,464 | 2,004,819 |
| Advance to suppliers | 10,784 | 13,785 |
| Prepayments | 51,053 | 40,245 |
| Loans to employees | 118,222 | 115,007 |
| Accrued interest | 219,824 | 318,499 |
| Other receivables | 147,918 | 156,858 |
| | <u>3,858,047</u> | <u>3,459,790</u> |
| Less: expected credit loss (i) | <u>(58,392)</u> | <u>(58,395)</u> |
| | <u>3,799,655</u> | <u>3,401,395</u> |

(i) As at 31 December, the expected credit loss allowance amounting to QR 58.04 million (2024: QR 58.04 million) relates to amounts due from related parties (Note 21(b)) and QR 0.35 million (2024: QR 0.36 million) relates to other receivables. The other classes within trade and other receivables do not contain impaired assets.

The ageing analysis of unimpaired trade accounts receivable as at 31 December is as follows:

| | Total | Neither past due nor impaired | Past due but not impaired | | | | |
|-------------|------------------|--|---------------------------|------------------|------------------|-------------------|--------------------|
| | | | < 30 days | 31 to 60 days | 61 to 90 days | 91 to 180 days | 180 to 365 days |
| 2025 | 1,312,782 | 891,737 | 421,045 | - | - | - | - |
| 2024 | 810,577 | 635,637 | 148,141 | 12,005 | 14,794 | - | - |

15. Share capital

| | 2025 | 2024 |
|--|-------------------------|-------------------------|
| <i>Authorised, issued and paid-up:</i> | | |
| 6,050,000,000 shares of QR 1 each | <u>6,050,000</u> | <u>6,050,000</u> |

QatarEnergy owns a Special Share of the Company, as per the Articles of Association of the Company, the Special Share grants QatarEnergy various powers including amongst others the control of the Company, the right to appoint seven out of eight directors provided that the chairman and the vice chairman are amongst those. All shares other than Special Share bear equal rights.

16. Reserves

The following table shows the movements in reserves during the year. A description of the nature and purpose of each reserve is provided below the table.

| | Legal reserves (i) | Other reserves (ii) | Total reserves |
|--------------------------------------|-----------------------|------------------------|-----------------------|
| At 1 January 2024 | 271,942 | (62,265) | 209,677 |
| Transfer to legal reserve | 55,117 | - | 55,117 |
| Other comprehensive loss | - | (2,840) | (2,840) |
| At 31 December 2024 / 1 January 2025 | <u>327,059</u> | <u>(65,105)</u> | <u>261,954</u> |
| Transfer to legal reserve | 33,055 | - | 33,055 |
| Other comprehensive loss | - | (13,278) | (13,278) |
| At 31 December 2025 | <u>360,114</u> | <u>(78,383)</u> | <u>281,731</u> |

16. Reserves (continued)

(i) In accordance with the Company's Articles of Association, the transfer of the legal reserve is decided by the Board of Directors. The Articles require that prior to recommending any dividend distribution to the shareholders, the Board shall transfer amounts to reserves that it considers necessary or appropriate.

In consolidated financial statements, the legal reserve comprises of the legal reserves of subsidiaries and the amounts decided by the Company's Board from its own profits.

Accordingly, the Board resolved to transfer 10% of IQ's standalone net profit (2024: 10%), after deducting dividends and related tax benefits received from subsidiaries, associates and joint ventures for the year.

(ii) Other reserves comprise of hedging reserve and actuarial gains / (losses) arising from experience adjustments and changes in actuarial assumptions (remeasurements) of the Group's defined benefit obligation.

The hedging reserve reflects the Group's share of cash flow hedge gains or losses on derivatives that are recognised in other comprehensive income of associates accounted for using the equity method. These items are or maybe reclassified subsequently to the consolidated statement of profit or loss when the associated hedged item affects the associate's profit or loss.

17. Social and sports contribution fund

In accordance with Law No. 13 of 2008, the Group recognised a provision of QR 102.57 million (2024: QR 106.54 million) which is equivalent to 2.5% of the adjusted consolidated net profit relating to Qatar operations for the year to support the social and sports activities. The provision recognized for the year 2024 was originally QR 102.15 million and has been restated by QR 4.39 million to QR 106.54 million (Note 31).

18. Dividends

During the year 2025, the Board of Directors approved an interim cash dividend in respect of the six-month period ended 30 June 2025 of QR 0.26 per share amounting to QR 1,573 million (30 June 2024: QR 0.31 per share amounting to QR 1,875.5 million).

Subsequent to the year-end, the Board of Directors has proposed a final cash dividend of QR 0.45 per share, amounting to QR 2,722.5 million (2024: QR 0.43 per share amounting to QR 2,601.5 million). This brings the total dividend for the year to QR 0.71 per share amounting to QR 4,295.5 million (2024: QR 0.74 per share amounting to QR 4,477 million).

The above proposed final dividend and the interim dividend paid for the year ended 31 December 2025 will be submitted for formal approval in the Annual General Meeting to be held in 2026.

The dividends for the year 2024 amounting to QR 4,477 million were approved by the shareholders in the Annual General Meeting held on 25 February 2025.

19. Long-term provisions

| | Notes | 2025 | 2024 |
|--|-------|------------------|----------------|
| Provision for employees' end of service benefits | 19.1 | 558,309 | 511,842 |
| Provision for decommissioning and site restoration obligations | 19.2 | 1,136,073 | - |
| | | 1,694,382 | 511,842 |

19. Long-term provisions (continued)**19.1 Provision for employees' end of service benefits**

The movements in the provision recognised in the consolidated statement of financial position are as follows:

| | 2025 | 2024 |
|---|----------------|----------------|
| At 1 January | 511,842 | 432,837 |
| Provision during the year | 105,987 | 71,885 |
| Interest cost | 5,604 | 5,634 |
| Acquisition of a subsidiary | - | 55,154 |
| Actuarial losses on re-measurement of present value of defined benefit obligation | 1,933 | 5,749 |
| Paid during the year | (67,057) | (59,417) |
| At 31 December | 558,309 | 511,842 |

The breakup of the Group's provision for employees' end of service benefits is as follows:

| | 2025 | 2024 |
|--|----------------|----------------|
| Pension for retired Qatari employees (a) | 110,646 | 124,001 |
| Provision for end of service benefits for non-Qatari employees | 265,089 | 239,936 |
| Provision for end of service benefits for Qatari employees | 182,574 | 147,905 |
| | 558,309 | 511,842 |

(a) Pension for retired Qatari employees

The Group has a defined benefit obligation to Qatari employees, or their heirs, who retired prior to the implementation of Qatari Pension Law No. 24 of 2002 on 5 March 2003. The Group's obligation to these pension benefits is significant and accordingly, accounted for using the projected unit credit method.

The assumptions used in determining the cost of pension obligations for retired Qatari employees including the discount rate, mortality rates, proportion married, spouse's age and children's pension allowance, are determined by an independent actuary at each year-end based on prevailing market and demographic conditions. These assumptions are used to calculate the present value of estimated future cash outflows required to settle the obligation. Any changes in the aforementioned assumptions will impact the amount of the obligation.

19.2 Provision for decommissioning and site restoration obligations

During the year, the Group has recognised provision for decommissioning and site restoration obligation and related decommissioning assets (Note 4.1.8 and 7). The movement in the provision for decommissioning and site restoration obligation is as follows:

| | 2025 | 2024 |
|--|------------------|------|
| At 1 January | - | - |
| Provision made during the year (Note 7) | 1,106,023 | - |
| Unwinding of discount recognised as finance cost | 30,050 | - |
| At 31 December | 1,136,073 | - |

Key assumptions used to measure above provision for decommissioning and site restoration obligation include decommissioning year (up to 2071), the inflation rate (based on the relevant market) is 2.18% and discount rates (pre-tax rate based on relevant market and the risks specific to the liability) ranging between 6.13% to 6.78%.

An increase / (decrease) of 3 years in decommissioning year would (decrease) / increase the provision by QR (163.4) million and QR 194 million respectively, with a corresponding impact in decommissioning asset. An increase / (decrease) of 1% in inflation rate would increase / (decrease) the provision by QR 392.8 million and QR (267.9) million respectively, with a corresponding impact in decommissioning asset. While an increase / (decrease) of 1% in discount rate would (decrease) / increase the provision by QR (238.3) million and QR 346.6 million respectively, with a corresponding impact in decommissioning asset.

19. Long-term provisions (continued)**19.2 Provision for decommissioning and site restoration obligations (continued)**

The provision and assumptions used will be re-evaluated on a periodic basis and adjustments will be made in the future accounting periods as deemed necessary.

The provision for decommissioning and site restoration obligation is presented in the consolidated statement of financial position as non-current.

20. Trade and other payables

| | 2025 | 2024 *Restated |
|---|-------------------------|-------------------------|
| Accrued expenses | 570,574 | 1,326,435 |
| Provision for financial guarantee (1) | 257,342 | 257,342 |
| Due to related parties (Note 21(b)) | 846,121 | 489,776 |
| Trade payables | 331,138 | 283,201 |
| Social and sports contribution fund payable (Note 17) | 106,958 | 106,536 |
| Dividend payable | 78,985 | 89,244 |
| Other payables | 85,593 | 70,644 |
| | <u>2,276,711</u> | <u>2,623,178</u> |

* Refer to Note 31.

(1) Provision for financial guarantee

This represents the provision on financial guarantees given to one of the Group's associates which was based on maximum liability of the Group's total exposure. During 2024, based on settlement of the loan by the Group's associate and related release of guarantee from one of the lenders, the Group reversed provision of QR 142.66 million and recognised it as other income. Refer to Note 26.

21. Related parties' disclosures

Related parties, as defined in International Accounting Standard 24: Related Party Disclosures, include associate companies, major shareholders, directors and other key management personnel of the Group, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the respective management.

a) Related party transactions

Transactions with related parties included in the consolidated statement of profit or loss are as follows:

| | 1,939,426 | 1,946,781 |

* The balance represents dividend and tax benefit related receivables.

Due from related parties are unsecured and non-interest bearing. These are collectible within the Group's normal credit terms, except for amounts of QR 58.04 million (2024: QR 58.04 million) on which expected credit losses have been recognised.

| <i>Due to related parties</i> | 2025 | 2024 |
|--|----------------|----------------|
| <i>Parent</i> | | |
| QatarEnergy | 761,903 | 368,254 |
| <i>Entity under common control</i> | | |
| QatarEnergy Marketing | 285 | - |
| AI Koot Insurance and Reinsurance Company P.J.S.C. | 7,734 | 3,719 |
| Qatar Fuel Company Q.P.S.C. (WOQOD) | 34 | 457 |
| <i>Affiliates</i> | | |
| GASAL Company Q.S.C. | 3,021 | 525 |
| Bahrain Steel B.S.C. | 73,144 | 116,821 |
| | 846,121 | 489,776 |

Due to related parties are non-interest bearing and payable on demand.

Terms and conditions of transactions with related parties

Outstanding balances as at 31 December 2025 and 2024 are unsecured and interest-free. Other than those mentioned, there have been no guarantees provided or received for any related party receivables or payables.

Other guarantees with related parties

The Group has provided bank guarantees for one of its associates in respect of their borrowings from external banks. Refer to Note 20.

21. Related parties' disclosures (continued)**c) Compensation of key management personnel**

The remuneration of directors and other members of key management of the Group during the year was as follows:

| | 2025 | 2024 |
|--|----------------------|----------------------|
| Board of Directors remuneration (1) | 13,883 | 13,760 |
| Remuneration and short term benefits to key management personnel | 47,570 | 42,465 |
| Long term benefits to key management personnel | 3,062 | 5,970 |
| | <u>64,515</u> | <u>62,195</u> |

(1) This includes the fee for Company's Board of Directors amounting to QR 8.75 million (2024: QR 8.75 million). The Company has established a remuneration policy for its Board of Directors. This policy is comprised of two components: a fixed component, and a variable component. The variable component is related to the financial performance of the Company. The remuneration of the Directors of the Company is within the limit prescribed by the Qatar Commercial Companies' Law.

22. Basic and diluted earnings per share

Basic and diluted earnings per share (EPS) are calculated by dividing the profit for the year attributable to Owner of the Company by the weighted average number of shares outstanding during the year.

| | 2025 | 2024 Restated* |
|---|--------------------|--------------------|
| Profit for the year | <u>4,323,491</u> | <u>4,727,945</u> |
| Profit attributable to owners of the Company for basic and diluted earnings | <u>4,300,053</u> | <u>4,665,879</u> |
| Weighted average number of shares (in thousands) | <u>6,050,000</u> | <u>6,050,000</u> |
| Basic and diluted earnings per share (QR) | <u>0.71</u> | <u>0.77</u> |

* Refer to Note 31.

23. Income tax**Tax expense**

| | 2025 | 2024 Restated* |
|---|------------------------|----------------------|
| Current income tax | | |
| Current income tax charge | 1,091,203 | 817,810 |
| Global minimum top-up tax | 7,274 | - |
| Adjustments for prior year income tax | <u>12,021</u> | <u>14,791</u> |
| Group tax benefit (i) | <u>1,110,498</u> | <u>832,601</u> |
| Net current tax expense | <u>(1,056,015)</u> | <u>(793,920)</u> |
| Deferred tax income | | |
| Relating to temporary differences | <u>54,483</u> | <u>38,681</u> |
| Income tax expense included in the statement of profit or loss | <u>(27,781)</u> | <u>(721)</u> |
| | <u>26,702</u> | <u>37,960</u> |

* Refer to Note 31.

23. Income tax (continued)

(i) As per the MOU between the General Tax Authority, QatarEnergy and Ministry of Finance signed on 4 February 2020, the proportion of income tax of the subsidiaries, joint ventures and their components attributable to the effective shareholding of the public shareholding company shall be settled with the General Tax Authority by the Ministry of Finance through the defined settlement arrangement between the public shareholding company, QatarEnergy and the Ministry of Finance.

Reconciliation of tax expense

| | 2025 | 2024 Restated* |
|--|----------------------|----------------------|
| Profit before tax | 4,350,193 | 4,765,905 |
| Adjustments for: | | |
| Non-taxable income | (1,211,659) | (2,510,732) |
| Non-deductible expenses and losses | 279,588 | 143,965 |
| Taxable income | <u>3,418,122</u> | <u>2,399,138</u> |
| Income tax | 1,070,696 | 817,089 |
| Adjustments for prior year income tax | 12,021 | 14,791 |
| Group tax benefit relating to subsidiaries | <u>(1,056,015)</u> | <u>(793,920)</u> |
| Income tax expense | <u>26,702</u> | <u>37,960</u> |

* Refer to Note 31.

Income tax payable

The movement of income tax payable is as follows:

| | 2025 | 2024 |
|--|----------------------|-----------------------|
| At 1 January | 137,057 | 2,323 |
| Current income tax for the year | 1,091,203 | 817,810 |
| Global minimum top-up tax | 7,274 | - |
| Acquisition of a subsidiary | - | 99,799 |
| Adjustments for prior year income tax | 12,021 | 14,791 |
| Amount paid during the year | <u>(142,332)</u> | <u>(3,746)</u> |
| Group tax benefit relating to subsidiaries | <u>(1,056,015)</u> | <u>(793,920)</u> |
| At 31 December | <u>49,208</u> | <u>137,057</u> |

Deferred tax

The movement of deferred tax asset is as follows:

| | 2025 | 2024 |
|---------------------------------|----------------------|----------------------|
| At 1 January | 17,264 | - |
| Acquisition of a subsidiary | - | 20,420 |
| Deferred tax income / (expense) | 20,775 | (3,156) |
| At 31 December | <u>38,039</u> | <u>17,264</u> |

The movement of deferred tax liability is as follows:

| | 2025 | 2024 Restated* |
|--|----------------------|----------------------|
| At 1 January | 66,176 | - |
| Arising on acquisition of a subsidiary (Note 31) | - | 70,053 |
| Deferred tax income | (7,006) | (3,877) |
| At 31 December | <u>59,170</u> | <u>66,176</u> |

23. Income tax (continued)**Global Minimum Tax**

The Company and its subsidiaries are part of the QatarEnergy Group, a multinational enterprise (MNE) headquartered in Qatar and subject to the Pillar Two regime introduced by the Organisation for Economic Cooperation and Development (OECD).

On 27 March 2025, the State of Qatar published in the Official Gazette Law No. 22 of 2024, amending certain provisions of the Income Tax Law (Law No. 24 of 2018) by introducing the Domestic Minimum Top up Tax (DMTT) and Income Inclusion Rule (IIR), with a global minimum tax rate of 15%. These amendments are effective from 1 January 2025. In May 2023, the International Accounting Standards Board (IASB) amended IAS 12 to introduce a temporary mandatory exception from recognizing deferred taxes arising from Pillar Two legislation. The Company and its subsidiaries have adopted this exception and has not recorded any deferred taxes related to Pillar Two for the reporting period.

The Company and its subsidiaries mainly operate in Qatar and the United Arab Emirates (UAE). In February 2025, the Ministry of Finance (MoF) of the UAE issued Cabinet Decision No. 142 of 2024 introducing a 15% DMTT for MNE group entities operating in the UAE and subject to Pillar Two. This Decision applies to annual periods beginning on or after 1 January 2025.

QatarEnergy MNE Group has performed a preliminary impact assessment of all relevant jurisdictions, including the Company and its subsidiaries, using the qualified CbCR for FY 2024 and applying the Transitional Country by Country Reporting (CbCR) Safe Harbour Rule. The assessment indicates that there is no impact on the Company and its subsidiaries in the jurisdictions in which it operates, other than QR 7.27 million recognised by the Group's subsidiary in UAE.

The Group continues to monitor developments in Qatar and other jurisdictions, including the issuance of Executive Regulations that may affect future tax calculations and compliance. Any material changes will be reflected in future reporting periods.

24. Revenues

| | 2025 | 2024 |
|---|--------------------------|--------------------------|
| Disaggregation of revenue – at a point in time | | |
| Bars sales | 2,818,627 | 2,701,720 |
| Billets sales | 555,975 | 233,236 |
| Direct reduced iron (DRI) sales | 1,447,776 | 824,763 |
| Coil sales | 297,644 | 221,762 |
| Urea sales | 7,660,014 | 6,494,660 |
| Ammonia sales | 659,060 | 551,440 |
| Melamine sales | 235,906 | 200,108 |
| Methanol sales | 629,221 | 383,282 |
| Methyl tert-butyl ether (MTBE) sales | 1,673,772 | 1,041,165 |
| | <u>15,977,995</u> | <u>12,652,136</u> |

25. Cost of sales

| | 2025 | 2024 Restated* |
|--|--------------------------|-------------------------|
| Raw materials, utilities and consumables used | 9,028,777 | 6,956,399 |
| Depreciation of property, plant and equipment (Note 7) | 1,641,469 | 1,499,988 |
| Employee benefits expenses | 920,112 | 787,848 |
| Repair and maintenance | 224,620 | 157,573 |
| Depreciation of right-of-use assets (Note 11) | 52,527 | 42,584 |
| External manpower cost | 129,969 | 86,030 |
| Professional and consultancy fee | 20,015 | 23,614 |
| Others | 159,987 | 320,234 |
| | <u>12,177,476</u> | <u>9,874,270</u> |

* Refer to Note 31.

26. Other income - net

| | 2025 | 2024 Restated* |
|---|----------------|-------------------|
| By-product sales - net | 11,132 | (42,983) |
| Unrealized gain / (loss) on financial assets at FVTPL (Note 12) | 4,584 | (19,690) |
| Reversal of impairment loss on property, plant and equipment (Note 7) | 222,000 | - |
| Reversal of provision on financial guarantee (Note 20) | - | 142,659 |
| Bargain purchase gain (Note 31.6) | - | 225,763 |
| Gain on remeasurement of previously held equity interest in a joint venture (Note 31.4) | - | 146,475 |
| Others | 65,010 | 102,285 |
| | 302,726 | 554,509 |

* Refer to Note 31.

27. Income from other investments

| | 2025 | 2024 |
|--|----------------|----------------|
| Dividend income from financial assets at FVTPL | 18,660 | 22,017 |
| Income on bank deposits – Islamic banks | 179,100 | 280,977 |
| Income on bank deposits – other banks | 234,494 | 405,645 |
| | 432,254 | 708,639 |

28. General and administrative expenses

| | 2025 | 2024 |
|--|----------------|----------------|
| Employee benefits expenses | 560,808 | 490,420 |
| Professional and consultancy fee (1) | 18,766 | 30,932 |
| External services | 88,537 | 75,914 |
| Depreciation of property, plant and equipment (Note 7) | 46,213 | 33,708 |
| Depreciation of right-of-use assets (Note 11) | 9,459 | 9,813 |
| Rental, utilities and supplies | 29,569 | 29,231 |
| Board of director's remuneration | 13,883 | 13,760 |
| Travel, transportation and communication | 15,907 | 12,725 |
| QatarEnergy management fees | 6,059 | 5,843 |
| Qatar Stock Exchange fees | 2,229 | 2,229 |
| Others | 64,193 | 56,506 |
| | 855,623 | 761,081 |

(1) This includes auditors' remuneration of audit of financial statements related fees for an amount of QR 1.02 million (2024: QR 0.79 million) and services other than audit for an amount of QR 0.68 million (2024: QR 0.37 million).

29. Commitments

Significant capital expenditure contracted at the end of the reporting period but not recognized as a liability is as follows:

| | 2025 | 2024 |
|---|----------------|----------------|
| Capital commitments of the Company and subsidiaries | 1,209,408 | 2,638,913 |
| Capital commitments – the Group's share of associates and joint venture | 279,762 | 399,600 |

30. Contingencies**a. Group's share in contingent liabilities**

| | 2025 | 2024 |
|---|----------------|----------------|
| Letters of credit | <u>3,554</u> | <u>15,042</u> |
| Bank guarantees | <u>172</u> | <u>3,086</u> |
| Letters of credit – the Group's share of associates and joint venture | <u>228,487</u> | <u>126,141</u> |
| Bank guarantees – the Group's share of associates and joint venture | <u>6,308</u> | <u>61,253</u> |

The Group anticipates that no material liabilities will arise from the above guarantees and letter of credits, which are issued in the ordinary course of business other than the QR 257.34 million (2024: QR 257.34 million) already recognized (Note 20).

b. Site restoration obligations

One of the Group's subsidiaries has entered into a land lease agreement with lessor on which the plant and other facilities have been constructed. Under this agreement, the Lessor has the right, upon termination or expiration of the lease term, to notify the subsidiary that it requires to either:

- Transfer the facilities to the Lessor or a transferee nominated by the Lessor, against a price acceptable by the subsidiary, or;
- Remove the facilities and all other property from the land and restore it to the condition in which it was delivered to the subsidiary, at the subsidiary's cost, unless otherwise is agreed with the Lessor.

The incurrence of decommissioning and site restoration cost by the Group is contingent to which option is opted by the lessor. Since the Lessor has not notified the subsidiary i) the option to be opted and ii) any communications for its intent, the criteria to recognize the provision for decommissioning and site restoration obligation is not fully met and therefore, the Group has not recognized provision for the decommissioning and site restoration obligation as at and for the year ended 31 December 2025 in respect of this subsidiary.

c. Tax related contingencies

The General Tax Authority ("GTA") issued income tax assessments to certain components of the Group for the years from 2012 to 2023, requiring the components to pay additional taxes and penalties of QR 2,965 million (including share of joint ventures and associates) and disallowing some expenses.

The components have submitted formal objections, as per the requirement of the tax law, rejecting the full amount claimed by the GTA within 30 days.

Management has concluded that it is probable (i.e., it is more likely than not) based on the earlier precedence that the General Tax Authority will accept the tax treatment in the objection and accordingly has not recorded a liability for the assessments received or for any potential further amounts which may be assessed in relation to this matter in the subsequent years.

Further, as per the terms of the MOU (Note 4), the Ministry of Finance undertakes to settle any income tax amounts payable by these components for the previous years directly to the GTA. Based on the ongoing advanced discussions and correspondence between QatarEnergy, on behalf of the Group, the Ministry of Finance, and the GTA, it is expected that the assessments will either be withdrawn or resolved amicably between the parties involved.

d. Other contingencies

Other than the above, the Group is involved in certain litigations, however, based on the inputs from internal legal team, management has concluded that no provision is required to be recognised in these consolidated financial statements as of 31 December 2025 (2024: Nil).

31. Acquisition of a subsidiary

During 2024, the Group acquired control over Qatar Fuel Additives Company Limited (QAFAC), which is engaged in the production, marketing, and export of methyl-tertiary-butyl-ether (MTBE) and methanol. QAFAC is not publicly listed.

The acquisition resulted from the expiry of the Consolidated Joint Venture Agreement (CJVA) of QAFAC on 9 June 2024. Following the expiry of CJVA, effective 10 June 2024, the Company continues to hold its 50% shareholding interest in QAFAC. Remaining 50% shareholding in QAFAC held by other shareholders is acquired by a related party with an economic effective date of 10 June 2024. Based on the proposed arrangement with the related party, the Company has control over QAFAC so that it is exposed to and has rights to variable returns from its involvement with QAFAC and has the ability to impact those returns through its controlling shareholding in QAFAC, while the related party is entitled to 50% share of profits due to its shareholding.

Further, management has assessed that the acquired activities and assets of QAFAC are capable of being conducted and managed for the purpose of generating outputs and accordingly, this acquisition is a business combination for the Company as per IFRS 3. Accordingly, QAFAC has been consolidated as a subsidiary of the Group with effect from 10 June 2024.

31.1 Identifiable assets acquired and liabilities assumed

The following table summarizes the final fair value of assets acquired and liabilities assumed at the date of acquisition:

| | Fair value |
|--|------------------|
| Property, plant and equipment | 1,256,189 |
| Catalysts and other non-current assets | 73,064 |
| Deferred tax assets | 20,420 |
| Inventories | 251,147 |
| Trade and other receivables | 585,222 |
| Cash and cash equivalents | 478,288 |
| Provision for employees' end of service benefits | (55,154) |
| Trade and other payables | (352,383) |
| Income tax payable | (99,798) |
| Deferred tax liability | (70,053) |
| Total identifiable net assets | 2,086,942 |

Finalization of fair value

The fair values of the identifiable assets acquired and liabilities assumed were determined with assistance from an independent external valuation specialist. As part of the purchase price allocation, the valuation of property, plant and equipment was performed using the Depreciated Replacement Cost (DRC) method, as the assets are specialised in nature and not directly comparable in the market. This approach reflects the current replacement cost of the assets, adjusted for allowances for obsolescence. The fair value uplift of QR 400.3 million in property, plant and equipment resulted in recognition of deferred tax liability of QR 70 million.

The valuation of inventories resulted in a fair value increase of QR 41.9 million. The uplift primarily relates to finished goods, valued based on observable selling prices at the acquisition date, net of costs to sell and including a reasonable margin for selling effort. The carrying values of other inventory components were assessed to approximate fair value.

The trade receivables balance of QR 585.2 million represents contractual amounts receivable with no expected credit losses at the acquisition date. The deferred tax assets and income tax payable was adjusted to exclude amounts receivable from or payable to the Group (based on MOU referred in Note 4), reflecting the elimination of intra-group balances.

The carrying values of the remaining identifiable assets and liabilities assumed are a reasonable approximation of their fair values.

The fair values determined are categorized within Level 3 of the fair value hierarchy.

31. Acquisition of a subsidiary (continued)

31.1 Identifiable assets acquired and liabilities assumed (continued)

Finalization of fair value (continued)

The Group finalized the acquisition accounting of QAFAC within the one-year measurement period permitted by IFRS 3. The measurement period ended on 9 June 2025. Previously, as of 31 December 2024 and 30 June 2024, the Group had reported provisional fair values. Accordingly, upon completion of the fair values, the comparative information presented as at and for the year ended 31 December 2024 have been restated to reflect the adjustments to provisional amounts as required by IFRS 3. The impact of restatement is as follows:

| | Impact of the finalization of acquisition accounting | | |
|---|---|--------------------|--------------------|
| | As previously reported | Adjustments | As restated |
| As at 31 December 2024 | | | |
| <i>Items related to the consolidated statement of financial position:</i> | | | |
| Assets | | | |
| Property, plant and equipment | 15,522,415 | 234,562 | 15,756,977 |
| Other assets | 26,892,955 | - | 26,892,955 |
| Total assets | 42,415,370 | 234,562 | 42,649,932 |
| Equity | | | |
| Retained earnings | 31,437,783 | 171,196 | 31,608,979 |
| Non-controlling interests | 902,435 | (7,200) | 895,235 |
| Others | 6,311,954 | - | 6,311,954 |
| Total equity | 38,652,172 | 163,996 | 38,816,168 |
| Liabilities | | | |
| Deferred tax liability | - | 66,176 | 66,176 |
| Trade and other payables | 2,618,788 | 4,390 | 2,623,178 |
| Other liabilities | 1,144,410 | - | 1,144,410 |
| Total liabilities | 3,763,198 | 70,566 | 3,833,764 |
| Total liabilities and equity | 42,415,370 | 234,562 | 42,649,932 |

For the year ended 31 December 2024*Items related to the consolidated statement of profit or loss:*

| | | | |
|----------------------------|------------------|----------------|------------------|
| Revenues | 12,652,136 | - | 12,652,136 |
| Cost of sales | (9,810,216) | (64,054) | (9,874,270) |
| Other income - net | 325,946 | 228,563 | 554,509 |
| Income tax expense | (41,837) | 3,877 | (37,960) |
| Others | 1,433,530 | - | 1,433,530 |
| Profit for the year | 4,559,559 | 168,386 | 4,727,945 |

31. Acquisition of a subsidiary (continued)

31.1 Identifiable assets acquired and liabilities assumed (continued)

Finalization of fair value (continued)

| | Impact of the finalization of acquisition accounting | | |
|---|--|----------------|-------------------|
| | As previously reported | Adjustments | As restated |
| For the year ended 31 December 2024 (continued) | | | |
| <i>Items related to the consolidated statement of profit or loss (continued):</i> | | | |
| Profit attributable to: | | | |
| Owners of the Company | 4,490,293 | 175,586 | 4,665,879 |
| Non-controlling interests | 69,266 | (7,200) | 62,066 |
| | 4,559,559 | 168,386 | 4,727,945 |
| Earnings per share | | | |
| Basic and diluted earnings (QR per share) | 0.74 | 0.03 | 0.77 |
| <i>Items related to the consolidated statement of comprehensive income:</i> | | | |
| Total comprehensive income for the year | 4,556,719 | 168,386 | 4,725,105 |
| Total comprehensive income attributable to: | | | |
| Owners of the Company | 4,487,453 | 175,586 | 4,663,039 |
| Non-controlling interests | 69,266 | (7,200) | 62,066 |
| | 4,556,719 | 168,386 | 4,725,105 |
| <i>Items related to the consolidated statement of changes in equity:</i> | | | |
| Retained earnings | 31,437,783 | 171,196 | 31,608,979 |
| Non-controlling interests | 902,435 | (7,200) | 895,235 |
| Others | 6,311,954 | - | 6,311,954 |
| Total equity | 38,652,172 | 163,996 | 38,816,168 |

There is no impact on operating, investing and financing cash flows due to above change.

31.2 Consideration transferred

As the Group has acquired control by virtue of expiry of the CJVA, there is no consideration transferred as part of this business combination.

31.3 Acquisitions related cost

The Group has incurred acquisition-related costs amounting to QR 0.49 million during the year (2024: Nil) relating to consultant and external professional fees.

31. Acquisition of a subsidiary (continued)**31.4 Remeasurement of previously held equity interest in a joint venture**

Based on the fair value, the table below summarizes the gain on remeasurement of previously held equity interest in the joint venture on the date of acquisition, which has been recorded in profit or loss of the comparative period as part of other income (Note 26).

| | Amount |
|--|-----------------------|
| 50% of the fair value of the joint venture as of the date of acquisition | 1,043,471 |
| Carrying value of joint venture as of date of acquisition (Note 9) | <u>(896,996)</u> |
| Fair value gain on remeasurement of existing interest in QAFAC | <u>146,475</u> |

31.5 Non-controlling interest

Post expiry of CJVA, effective 10 June 2024, remaining 50% shareholding in QAFAC held by other shareholders is to be acquired by related party with economic effective date of 10 June 2024 which is only entitled to 50% share of profits due to its shareholding. The following table summarizes the information relating to non-controlling interest (NCI) before any intra-group eliminations at acquisition date:

| | Amount |
|---|-----------------------|
| Total identifiable net assets acquired at book value | 1,635,416 |
| NCI percentage | <u>50%</u> |
| NCI as of date of acquisition – based on their proportionate share of net assets | <u>817,708</u> |

31.6 Bargain purchase gain

| | Amount |
|--|-----------------------|
| Fair value of identifiable net assets | 2,086,942 |
| Fair value of investment in QAFAC as of acquisition date | <u>(1,043,471)</u> |
| NCI as of date of acquisition – based on their proportionate share of net assets | <u>(817,708)</u> |
| Bargain purchase gain (Note 26) | <u>225,763</u> |

32. Segment information

The Group operates in the Gulf region. For management purposes, the Group is organised into business units based on their products and services. In determining business units, joint ventures of the Group are treated as if they are proportionately consolidated within the financial statements. The Group has three reportable segments as follows:

- The petrochemical segments, which produces and sells ethylene, polyethylene, MTBE, methanol and other petrochemical products.
- The fertilizer segment, which produces and sells urea, ammonia and other by-products.
- The steel segment, which produces and sells steel pellets, bars, billets and others.

Management of the Group monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss, which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

32. Segment information (continued)

Segment revenue

The revenue from external parties is measured in the same way as in the consolidated statement of profit or loss.

| | 31 December 2025 | | | 31 December 2024 | | |
|--|---------------------------------|-----------------------|-------------------|---------------------------------|-----------------------|-------------------|
| | Revenue from external customers | Inter-segment revenue | Total | Revenue from external customers | Inter-segment revenue | Total |
| Petrochemicals | 5,039,355 | 33,181 | 5,072,536 | 4,982,966 | 18,330 | 5,001,296 |
| Fertilisers | 8,554,981 | - | 8,554,981 | 7,246,209 | - | 7,246,209 |
| Steel | 5,120,021 | - | 5,120,021 | 3,981,481 | - | 3,981,481 |
| Total segment revenue | <u>18,714,357</u> | <u>33,181</u> | <u>18,747,538</u> | <u>16,210,656</u> | <u>18,330</u> | <u>16,228,986</u> |
| Revenue from joint ventures | (2,736,362) | | | (3,558,520) | | |
| Revenue per consolidated statement of profit or loss | <u>15,977,995</u> | | | <u>12,652,136</u> | | |

Revenues from external customers come from the sale of steel bars, billets, coils, direct reduced iron, hot briquetted iron, by-products, freight revenues, urea, ammonia, methyl-tertiary-butyl-ether (MTBE), methanol, ethylene, polyethylene and other petrochemical products.

Revenues of QR 10,841 million (2024: QR 8,662 million) are derived from a single external customer, QatarEnergy Marketing.

The Group entities are domiciled in Qatar, the Kingdom of Bahrain, the Kingdom of Saudi Arabia and United Arab Emirates.

Of the Group's consolidated revenue in 2025, 76% is earned from customers in Qatar (2024: 78%), 15% is earned from customers in UAE (2024: 8%) and the remaining is distributed amongst the customers in a number of countries which is not split for purpose of segment reporting.

Segment profit

The following table presents profit information regarding the Group's operating segments for the year ended 31 December 2025 and 2024, respectively:

| | Petrochemicals | Fertilisers | Steel | Total |
|---------------------------------------|----------------|------------------|----------------|------------------|
| 31 December 2025 | | | | |
| Segment profit after tax | 767,141 | 2,675,717 | 532,512 | 3,975,370 |
| Share of results from associates | - | - | 139,838 | 139,838 |
| Total segment profit | <u>767,141</u> | <u>2,675,717</u> | <u>672,350</u> | <u>4,115,208</u> |
| <i>Unallocated income: (1)</i> | | | | |
| Interest income | | | | 317,402 |
| Dividend income | | | | 18,660 |
| Other income | | | | 8,592 |
| | | | | <u>344,654</u> |
| <i>Unallocated expense: (1)</i> | | | | |
| Board of Director's fees and expenses | | | | (8,750) |
| QatarEnergy management fee | | | | (6,059) |
| Qatar Stock Exchange fees/charges | | | | (2,229) |
| Other expense | | | | (119,333) |
| | | | | <u>(136,371)</u> |
| Profit for the year | | | | <u>4,323,491</u> |

(1) These represent the income and expenses of IQ from its own activities excluding dividends received from subsidiaries and joint ventures, which are eliminated as part of consolidation.

32. Segment information (continued)

Segment profit (continued)

| | Petrochemicals | Fertilisers | Steel | Total |
|---------------------------------------|----------------|-------------|---------|-----------|
| 31 December 2024 (Restated*) | | | | |
| Segment profit after tax | 1,430,300 | 1,969,912 | 219,818 | 3,620,030 |
| Share of results from associates | - | - | 345,509 | 345,509 |
| Total segment profit | 1,430,300 | 1,969,912 | 565,327 | 3,965,539 |
| <i>Unallocated income: (1)</i> | | | | |
| Interest income | | | | 544,288 |
| Dividend income | | | | 22,017 |
| Other income | | | | 387,794 |
| | | | | 954,099 |
| <i>Unallocated expense: (1)</i> | | | | |
| Board of Director's fees and expenses | | | | (8,750) |
| QatarEnergy annual fee | | | | (5,843) |
| Qatar Stock Exchange fees/charges | | | | (2,229) |
| Other expense | | | | (174,871) |
| | | | | (191,693) |
| Profit for the year | | | | 4,727,945 |

(1) These represent the income and expenses of IQ from its own activities excluding dividends received from subsidiaries and joint ventures, which are eliminated as part of consolidation.

Segment assets and liabilities

The following table presents segment assets and liabilities regarding the Group's business segments as at 31 December 2025 and 2024. Reconciliation of reportable segments total assets and total liabilities:

| Segment assets | Petrochemicals | Fertilisers | Steel | Unallocated and (2) eliminations | Adjustments | Total |
|------------------------------------|----------------|-------------|-----------|----------------------------------|-------------|------------|
| At 31 December 2025 | 9,902,265 | 17,059,695 | 9,289,264 | 8,144,170 | (1,257,319) | 43,138,075 |
| At 31 December 2024 (Restated*) | 9,459,104 | 15,001,768 | 8,536,553 | 9,934,843 | (322,719) | 42,609,549 |

| Segment liabilities | Petrochemicals | Fertilisers | Steel | Unallocated and (2) eliminations | Adjustments | Total |
|------------------------------------|----------------|-------------|-----------|----------------------------------|-------------|-----------|
| At 31 December 2025 | 3,333,505 | 2,920,833 | 1,129,797 | 203,303 | (3,103,228) | 4,484,210 |
| At 31 December 2024 (Restated*) | 2,072,568 | 2,517,078 | 1,054,792 | 270,931 | (2,121,988) | 3,793,381 |

* Refer to Note 31.

(2) These represent IQ's assets and liabilities from its own activities, excluding balances relating to its investments in subsidiaries and joint venture and receivables with subsidiaries, which are eliminated as part of consolidation.

33. Financial risk and capital management

a. Objectives and policies

The treasury function of each entity in the Group provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including interest rate risk, foreign currency exchange risk, and other price risk), credit risk and liquidity risk.

b. Market risk

Market risk is the risk that changes in market prices, such as commodity prices, foreign exchange rates and interest rates, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Group's activities expose it primarily to the financial risks of changes in commodity prices, foreign currency exchange rates and interest rates.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's financial assets with floating interest rates, which are mainly cash and bank balances.

Sensitivity

For interest bearing assets, the analysis is prepared assuming the amount of the assets held outstanding at the end of the reporting period was outstanding for the whole year. As at reporting date, if interest rates had been 100 basis point higher/lower with all other variables held constant, income and equity for the year would have been QR 99 million (2024: QR 108 million) higher/lower, mainly as a result of higher/lower interest income on interest bearing assets.

(ii) Foreign currency exchange risk

The Group undertakes certain transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Management is of the opinion that the Group's exposure to currency risk is not significant as most of its foreign currency transactions are in United States Dollar which is pegged to Qatari Riyal.

(iii) Equity price risk

The Group's listed investments are susceptible to equity price risk arising from uncertainties about future values of the investments. The Group manages the equity price risk through diversification and placing limits on individual and total portfolio of equity instruments. Reports on the equity portfolio are submitted to senior management on a regular basis and results are reviewed by the Board of Directors.

Sensitivity

As at the reporting date, the exposure to listed equity securities at fair value was QR 405.97 million (2024: QR 401.39 million) which includes financial assets at FVTPL (Note 12). An increase or decrease of 10% on the Qatar Stock Exchange index would have an impact of approximately QR 40.6 million (2024: QR 40.1 million) on the equity.

All of the Group's equity investments are publicly traded and are included in the Qatar Stock Exchange.

(iv) Commodity price risk

Volatility in oil and gas together with prices of commodity is inherent in Group's business and operating environment. The Group's key products are primarily sold through off-take agreements based on international prices. The Group's profit margin is therefore, affected by disproportionate fluctuations in the prices of crude oil and commodity prices.

33. Financial risk and capital management (continued)

b. Market risk (continued)

(iv) Commodity price risk (continued)

The Group is also exposed to commodity price risk, which arises from the purchase and consumption of large volumes of raw materials in its normal course of business. Raw material prices are linked to an index, which is volatile and influenced by worldwide factors such as political events, supply and demand fundamentals.

The Group does not use any derivative instruments to manage commodity price risks or for speculative purposes. The Group's sensitivity to commodity prices has not changed significantly from the prior year.

c. Credit risk

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposures to customers, including outstanding receivables.

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the creditworthiness of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the management annually.

The Group defines counterparties as having similar characteristics if they are related entities. Further, the Group limits its exposure on export customers by taking out letters of credit, where applicable.

In order to minimize credit risk, the Group develops and maintains the Group's credit risk gradings to categorise exposures according to their degree of risk of default. The credit rating information is supplied by independent rating agencies where available and, if not available, the Group uses other publicly available financial information and the Group's own trading records to rate its major customers and other debtors. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

| 31 December 2025 | External credit ratings | 12 month or lifetime ECL | Gross carrying amount | Loss Net carrying amount | |
|---------------------------------|--------------------------|--------------------------|-----------------------|--------------------------|-----------|
| | | | | allowance | amount |
| Trade and other receivables (1) | N/A | Lifetime ECL | 3,796,210 | (58,392) | 3,737,818 |
| Fixed deposits | Aa2, A+, A2, A3 and Baa1 | Lifetime ECL | 6,033,924 | - | 6,033,924 |
| Bank balances (2) | Aaa, Aa and A | 12-month ECL | 3,893,139 | - | 3,893,139 |

| 31 December 2024 | External credit ratings | 12 month or lifetime ECL | Gross carrying amount | Loss Net carrying amount | |
|---------------------------------|--------------------------|--------------------------|-----------------------|--------------------------|-----------|
| | | | | allowance | amount |
| Trade and other receivables (1) | N/A | Lifetime ECL | 3,405,760 | (58,395) | 3,347,365 |
| Fixed deposits | Aa2, A+, A2, A3 and Baa1 | Lifetime ECL | 7,282,356 | - | 7,282,356 |
| Bank balances (2) | Aaa, Aa and A | 12-month ECL | 3,523,061 | - | 3,523,061 |

(1) Trade and other receivables include trade accounts receivable, due from related parties, loans to employees, accrued interest and other receivables.

For trade receivables, the Group has applied the simplified approach to measure the loss allowance at lifetime ECL. The Group determines the expected credit losses on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix.

33. Financial risk and capital management (continued)

c. Credit risk (continued)

(2) Loss allowances on bank balances are always measured at an amount equal to 12-month ECLs. The Group considers bank balances to have a low risk level when their credit risk rating is equivalent to the globally understood definition of "investment grade". The Group considers this to be Ba3 or higher per Moody's Rating Agency. Accordingly, no material loss allowance on bank balances.

d. Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity risk management framework for the management of Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Analysis of financial liabilities

The table below summarizes the maturity profile of the Group's financial liabilities as at the reporting date based on undiscounted contractual repayment obligations:

| Contractual maturities of financial liabilities | Less than 1 year | Between 1-5 years | More than 5 years | Total contractual cash flows | Carrying amount of liabilities |
|--|------------------|-------------------|-------------------|------------------------------|--------------------------------|
| At 31 December 2025 | | | | | |
| Lease liability | 90,713 | 252,222 | 233,162 | 576,097 | 404,739 |
| Trade payables | 331,138 | - | - | 331,138 | 331,138 |
| Provision for financial guarantee | 257,342 | - | - | 257,342 | 257,342 |
| Due to related parties | 846,121 | - | - | 846,121 | 846,121 |
| Accrued expenses | 570,574 | - | - | 570,574 | 570,574 |
| Other payables | 85,593 | - | - | 85,593 | 85,593 |
| | 2,181,481 | 252,222 | 233,162 | 2,666,865 | 2,495,507 |
| Contractual maturities of financial liabilities | | | | | |
| At 31 December 2024 | | | | | |
| Lease liability | 87,855 | 300,790 | 257,917 | 646,562 | 455,128 |
| Trade payables | 283,201 | - | - | 283,201 | 283,201 |
| Provision for financial guarantee | 257,342 | - | - | 257,342 | 257,342 |
| Due to related parties | 489,776 | - | - | 489,776 | 489,776 |
| Accrued expenses | 1,326,435 | - | - | 1,326,435 | 1,326,435 |
| Other payables | 70,644 | - | - | 70,644 | 70,644 |
| | 2,515,253 | 300,790 | 257,917 | 3,073,960 | 2,882,526 |

33. Financial risk and capital management (continued)

e. Reconciliation of liabilities arising from financing activities

The below table details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes.

| | At 1 January 2025 | Financing cash flows | Non cash changes | At 31 December 2025 |
|-------------------|-------------------------|-------------------------|---------------------|---------------------------|
| Lease liabilities | 455,128 | (90,375) | 39,986 | 404,739 |
| | At 1 January 2024 | Financing cash flows | Non cash changes | At 31 December 2024 |
| Lease liabilities | 381,784 | (77,876) | 151,220 | 455,128 |

f. Capital management

Capital management

Capital includes equity attributable to the equity holders of the parent less net unrealised gains reserve.

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 December 2025 and 2024.

The Group monitors capital using a gearing ratio. As at the reporting date, the Group had no interest-bearing loans and borrowings. Net cash and bank balances therefore represent cash and bank balances less lease liabilities. Capital is equity attributable to the owners of the Company.

The Group's net cash position at year end was as follows:

| | 2025 | 2024 |
|--|-------------------|--------------------------|
| Cash and bank balances | 9,765,183 | 10,716,346 |
| Less: lease liabilities | (404,739) | (455,128) |
| Net cash and bank balances | 9,360,444 | 10,261,218 |
| | 2025 | 2024 <i>*Restated</i> |
| Equity attributable to the owners of the Company | 37,930,640 | 37,920,933 |

* Refer to Note 31.

The Group does not have a net debt position as at 31 December 2025 and 31 December 2024.

34. Fair value of financial instruments**a. Fair value measurements**

Financial instruments represent any contractual agreement that creates a financial asset, financial liability or an equity instrument. Financial assets comprise bank balances, trade and other receivables, amounts due from related parties, financial assets at fair value through profit or loss (FVTPL). Financial liabilities comprise trade and other payables and other non-current liabilities.

Classes and categories of financial instruments and their fair values

The following table combines information about:

- classes of financial instruments based on their nature and characteristics;
- the carrying amounts of financial instruments;
- fair values of financial instruments; and
- fair value hierarchy levels of financial assets and financial liabilities for which fair value was disclosed.

The following table presents the Group's financial assets measured and recognised at fair value at 31 December 2025 and 31 December 2024 on recurring basis:

| | Level 1 | Level 2 | Level 3 | Total |
|--|----------------|---------|---------|----------------|
| At 31 December 2025 | | | | |
| <i>Financial assets at fair value through profit and loss:</i> | | | | |
| Quoted price in an active market | 405,973 | - | - | 405,973 |
| At 31 December 2024 | | | | |
| <i>Financial assets at fair value through profit and loss:</i> | | | | |
| Quoted price in an active market | 401,389 | - | - | 401,389 |

During the year ended December 2025, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

Carrying values of other financial assets and liabilities of the Group are a reasonable approximation of their fair values.

35. Non-controlling interests

The following table summarises the information relating to each of the Group's subsidiaries that has material NCI, before any intra-group eliminations.

| At 31 December 2025 | QAFAC | GFC | Total |
|---|----------------|---------------|----------------|
| NCI percentage | 50% | 30% | |
| Non-current assets | 1,503,669 | 75,747 | 1,579,416 |
| Current assets | 1,365,328 | 43,245 | 1,408,573 |
| Non-current liabilities | (681,139) | (51,472) | (732,611) |
| Current liabilities | (735,680) | (8,104) | (743,784) |
| Net assets | 1,452,178 | 59,416 | 1,511,594 |
| Share of net assets | 726,089 | 17,825 | 743,914 |
| Group tax benefits and other adjustments | (20,209) | (480) | (20,689) |
| Net assets attributable to NCI | 705,880 | 17,345 | 723,225 |
| Revenue | 2,336,174 | 92,910 | 2,429,084 |
| Profit / total comprehensive income | 68,976 | 6,533 | 75,509 |
| NCI share | 34,488 | 1,960 | 36,448 |
| Other adjustments at group level | (13,010) | - | (13,010) |
| Share of profit / total comprehensive income attributable to NCI | 21,478 | 1,960 | 23,438 |
| Cash flow from operating activities | (95,736) | 9,656 | (86,080) |
| Cash flow from investment activities | (67,067) | 262 | (66,805) |
| Cash flow from financing activities | (11,764) | (8,330) | (20,094) |
| Net (decrease) / increase in cash and cash equivalents | (174,567) | 1,588 | (172,979) |
| At 31 December 2024 (Restated*) | | | |
| NCI percentage | 50% | 30% | |
| Non-current assets | 1,012,631 | 28,821 | 1,041,452 |
| Current assets | 1,580,558 | 40,842 | 1,621,400 |
| Non-current liabilities | (131,240) | (151) | (131,391) |
| Current liabilities | (692,829) | (8,330) | (701,159) |
| Net assets | 1,769,120 | 61,182 | 1,830,302 |
| Share of net assets | 884,560 | 18,354 | 902,914 |
| Group tax benefits | - | (479) | (479) |
| Other adjustments | (7,200) | - | (7,200) |
| Net assets attributable to NCI | 877,360 | 17,875 | 895,235 |
| Revenue | 1,442,776 | 88,270 | 1,531,046 |
| Profit / total comprehensive income | 133,704 | 8,046 | 141,750 |
| NCI share | 66,852 | 2,414 | 69,266 |
| Other adjustments | (7,200) | - | (7,200) |
| Share of profit / total comprehensive income attributable to NCI | 59,652 | 2,414 | 62,066 |
| Cash flow from operating activities | 428,551 | 12,946 | 441,497 |
| Cash flow from investment activities | (29,814) | 324 | (29,490) |
| Cash flow from financing activities | (5,807) | (6,528) | (12,335) |
| Net increase in cash and cash equivalents | 392,930 | 6,742 | 399,672 |

Financial information for profit or loss and cashflows of QAFAC is for the period from 10 June 2024 to 31 December 2024.

* Refer to Note 31.

36. Comparative figures

Other than the restatement mentioned in Note 31, the comparative figures presented have been reclassified where necessary to preserve consistency with the current period figures. However, such reclassifications did not have any effect on the net profit or the total equity for the comparative period.

Since QAFAC was acquired on 10 June 2024 (Note 31), the comparative information for the year ended 31 December 2024 includes the results of QAFAC for a partial period only, whereas the current year includes a full year of operations. Accordingly, certain comparative amounts may not be fully comparable with the current year.

37. Subsequent events

No significant events have occurred after the reporting date that would materially affect the understanding or interpretation of these financial statements except for the dividend approved by the Board of Directors as disclosed in Note 18.

INFORMATION RELATED TO COMPANY'S SEPARATE FINANCIAL STATEMENTS

This note provides certain information related to the Company's unconsolidated financial position as at 31 December 2025 and its comparative year. The complete set of separate financial statements of the Company prepared in accordance with International Accounting Standard 27 'Separate Financial Statements' (IAS 27) are issued separately.

Below is the breakdown of the Company's separate statement of financial position:

| | 31 December 2025 | 31 December 2024 |
|---|-----------------------------|---------------------|
| ASSETS | | |
| Non-current assets | | |
| Investment in subsidiaries | 6,836,892 | 6,836,892 |
| Investment in a joint venture | 1,623,024 | 1,623,024 |
| Advances | 443,556 | 315,544 |
| Total non-current assets | 8,903,472 | 8,775,460 |
| Current assets | | |
| Other receivables | 211,974 | 311,714 |
